

United States Artificial Intelligence Market 2021: Industry Size, Share, Trends, Growth and Forecast 2026

SHERIDAN, WYOMING, WYOMING, July 29, 2022 /EINPresswire.com/ --

According to the latest report by IMARC Group, titled "[United States Artificial Intelligence Market](#): Industry Trends, Share, Size, Growth, Opportunity and Forecast 2021-2026," the United States artificial intelligence market is expected to witness robust growth during the forecast period (2021-2026).

AI is a branch of computer science that replicates human intelligence to carry out diverse tasks in real-time. It is widely utilised for a variety of tasks, including voice recognition, decision-making, vision, handwriting recognition, language translation, etc. A few advantages of artificial intelligence include improved adaptability, increased time efficiency, increased accuracy, increased production, etc. As a result, it is utilised in a variety of industries, including banking, trade, automobile, healthcare, building, and military.

Covid-19 Scenario: We are regularly tracking the direct effect of COVID-19 on the market, along with the indirect influence of associated industries. These observations will be integrated into the report.

Market Trends and Drivers:

The use of AI-integrated systems to analyse vast volumes of data and boost overall operational efficiency across numerous industrial verticals has expanded as a result of growing digitalization. Additionally, the increasing use of AI-based algorithms in e-commerce platforms for obtaining

United States Artificial Intelligence Market Report

particular insights is accelerating market growth. The U.S. government's increased emphasis on supporting the development of the 5G network is another factor driving up demand for AI nationwide. Furthermore, throughout the forecasted period, the demand for AI in drones, robots, and self-driving automobiles is anticipated to increase due to the growing integration of image recognition technology with optical character identification.

United States Artificial Intelligence Market 2021-2026 Analysis and Segmentation:

The report has segmented the market on the basis on region, type, offering, technology, system, end-use industry.

Breakup by Type:

- Narrow/Weak Artificial Intelligence
- General/Strong Artificial Intelligence

Breakup by Offering:

- Hardware
- Software
- Services

Breakup by Technology:

- Machine Learning
- Natural Language Processing
- Context-Aware Computing
- Computer Vision
- Others

Breakup by System:

- Intelligence Systems
- Decision Support Processing
- Hybrid Systems
- Fuzzy Systems

Breakup by End-Use Industry:

- Healthcare
- Manufacturing
- Automotive
- Agriculture

Retail
Security
Human Resources
Marketing
Financial Services
Transportation and Logistics
Others

Breakup by Region:

Northeast
Midwest
South
West

Key highlights of the report:

Market Performance (2015-2020)
Market Outlook (2021- 2026)
Porter's Five Forces Analysis
Market Drivers and Success Factors
SWOT Analysis
Value Chain
Comprehensive Mapping of the Competitive Landscape

If you need specific information that is not currently within the scope of the report, we can provide it to you as a part of the customization.

If you want latest primary and secondary data (2021-2026) with Cost Module, Business Strategy, Distribution Channel, etc. Click request free sample report, published report will be delivered to you in PDF format via email within 24 to 48 hours of receiving full payment.
