In-depth Analysis on Competitive Landscape

The report sheds light on leading providers of duplex nickel plating, along with their detailed

profiles. Essential and up-to-date data related to market performers who are principally engaged in the manufacturing of duplex nickel plating has been brought with the help of a detailed dashboard view. Market share analysis and comparison of prominent players provided in the report permits report readers to take preemptive steps in advancing their businesses.

Company profiles have been included in the report, which include essentials such as product portfolios and key strategies, along with all-inclusive SWOT analysis on each player. Company presence is mapped and presented through a matrix for all the prominent players, thus providing readers with actionable insights, which helps in thoughtfully presenting the market status, and predicting the competition level in the duplex nickel plating market.

Key Takeaways from Study

The global duplex nickel plating market is anticipated to add 1.7X value by 2031.

Decorative segment captures a major chunk in duplex nickel plating, and is set to create an absolute \$ opportunity of around US\$ 323 Mn over 2021-2031.

Among the plating types, bright duplex plating has been the fastest-growing segment, owing to high wear resistance capabilities over others.

North America is set to dominate market revenue in 2021, and this regional is expected to expand at 4% CAGR through 2031.

Due to the COVID-19 crisis, demand for duplex nickel plating was hit in 2020, which saw a decline of 2% over the 2nd and 3rd quarters.

“Nickel-microporous chrome is expected offer the most lucrative opportunities due to rising need of key end users, including automotive, aerospace, defence, etc., for improved corrosion-resistant plating services,” says a Fact.MR analyst.

Winning Strategy

Key manufacturers of duplex nickel plating must look forward to increased production capacity and prioritise geographical expansion.
