

Radiofrequency Ablation Devices Market 2022 | Asia-Pacific is expected to register the highest CAGR of 8.10% by 2030

The global radiofrequency ablation devices market report provides an extensive analysis of the current market trends and future estimations through 2021 - 2030

PORTLAND, OREGON, UNITED STATES, July 29, 2022 /EINPresswire.com/ -- According to the report by Allied Market Research, titled, "[Radiofrequency Ablation Devices Market](#) by Application (Cardiology, Oncology, and Pain Management), Product Type (Devices and Disposables) - Global Opportunity Analysis and Industry Forecast, 2021-2030". The report provides a detailed analysis of changing market dynamics, top segments, value chain, key investment pockets, regional scenario, and competitive landscape.

The market growth is favored by the increase in prevalence of cardiovascular diseases, such as, atrial fibrillation, incidence of patients' suffering from cancer and pain, and increase in demand for minimally-invasive procedures. The use of ultrasound ablation technology in RFAD is also augmenting the popularity of these devices. However, the market is limited by the high treatment cost, low awareness about the procedure, and availability of other treatments. It is estimated that the impact of drivers is expected to be higher than the restraints. Moreover, lucrative growth opportunities, such as expansion in emerging markets, untapped market in the developing regions, and technological advancements in RFA.
