Alarming rise in prevalence of chronic diseases, surge in number of hospitals, and advancement in imaging technology are expected to notably contribute toward the growth of the global medical/diagnostic imaging market during the forecast period.

Rise in need for the point-of-care imaging system, increased demand for enhanced optical images for improved diagnosis of diseases and disorders, and rise in incidence of chronic diseases drive the growth of the global medical/diagnostic imaging market. However, high cost of diagnostic/medical imaging devices and unfavorable reimbursement scenarios restrain the market growth. On the other hand, rise in number of key players that aim to develop innovative technology and increase in R&D activities in imaging technologies present new opportunities in the coming years.

Factors that drive the growth of the medical/diagnostic imaging market analysis include rise in number of hospitals and increase in prevalence of pneumonia. According to World Health Organization (WHO), in 2019, it was reported that pneumonia killed 740, 180 children under the age of 5, accounting for 14% of all deaths of children under five years old. Furthermore, increase in R&D activity in 3D medical imaging technology contribute in the medical imaging market growth. In addition, the increase in need for medical imaging surge the growth of medical imaging market.

Impact of Covid-19 on Medical/Diagnostic Imaging Market

The Covid-19 pandemic made a positive impact on the growth of the medical/diagnostic imaging market as the demand for CT scanners, MRI scanners, and X-ray imaging devices surged considerably to determine the level of infection.

A huge number of clinics and hospitals across the globe were restructured to cope with rise in demand for scans and provide improved healthcare facilities.

Based on region, North America held the highest share in 2020, accounting for around one-third of the total market share, and is expected to continue its dominance in terms of revenue by 2030. However, Asia-Pacific is estimated to portray the largest CAGR of 6.5% during the forecast period.

Leading players of the global medical/diagnostic imaging market analyzed in the research include Canon Inc. (Canon Medical Systems USA, Inc.), Esaote SpA, Carestream Health, Inc., Hitachi Ltd. (Hitachi Healthcare America Corporation), General Electric Company (GE Healthcare), Koninklijke Philips N.V., Hologic, Inc., Planmeca OY, Materialise NV, and Siemens AG.

We also Offers Regional and Country Reports-

Japan Medical/Diagnostic Imaging Market
South Korea Medical/Diagnostic Imaging Market
Singapore Medical/Diagnostic Imaging Market
China Medical/Diagnostic Imaging Market
Indonesia Medical/Diagnostic Imaging Market
Australia Medical/Diagnostic Imaging Market
Taiwan Medical/Diagnostic Imaging Market

“We have also published few syndicated market studies in the similar area that might be of your interest. Below are the report title for your reference, considering Impact of Covid-19 Over This Market which will help you to assess aftereffects of pandemic on short-term and long-term growth trends of this market.”

About Allied Market Research:

Allied Market Research (AMR) is a full-service market research and business-consulting wing of Allied Analytics LLP based in Portland, Oregon. Allied Market Research provides global enterprises as well as medium and small businesses with unmatched quality of "Market Research Reports" and "Business Intelligence Solutions." AMR has a targeted view to provide business insights and consulting to assist its clients to make strategic business decisions and achieve sustainable growth in their respective market domains. AMR offers its services across 11 industry verticals including Life Sciences, Consumer Goods, Materials & Chemicals, Construction & Manufacturing, Food & Beverages, Energy & Power, Semiconductor & Electronics, Automotive & Transportation, ICT & Media, Aerospace & Defense, and BFSI.
