Valley Fright Nights

Valley Fright Nights came about after years of coordinating and building small house haunts in the San Fernando Valley. The owners recognized there was a need for something fun, new, and exciting to do in the summer. They combined their passion for the horror genre, and the goal to provide summer night entertainment to create their inaugural event - Valley Fright Nights- The Summer Scare. The common question, which they have been asked hundreds of times- Why a Halloween event during the summer? Their response- Scary is scary not just in October, and fun is fun no matter what time of year it is.
