

Oregon Department of Justice implements industry-leading eSOPH Background Investigation Software

SALEM, OREGON, USA, August 1, 2022 /EINPresswire.com/ -- The [Oregon Department of Justice](#) recently joined fellow Oregon public safety agencies in transitioning to the innovative eSOPH background investigation system by Miller Mendel, Inc. and in doing so, joined the largest public safety background network in the nation.

The department expects to process approximately 10 applicants per year using eSOPH. In addition to taking advantage of eSOPH's industry-leading standard functionality and one-click access to the National Decertification Index, the department will utilize eSOPH's optional integrated Smart Fax, Experian credit reporting and social media screening features.

eSOPH, which stands for electronic Statement of Personal History, has been used by city, county, and state police agencies across the nation to conduct over 100,000 pre-employment public safety background investigations. Agencies using eSOPH report saving up to 50 percent of their time per background investigation. By implementing eSOPH, the Oregon Department of Justice is now connected to all other agencies on the network in Oregon and throughout the nation.
