The energy as a service market consists of sales of energy as a service solutions and services by entities (organizations, sole traders, and partnerships) that are used for the management of energy usage to deliver the desired energy service. Energy-as-a-service (EaaS) is a business concept in which clients pay for energy services without having to spend any money upfront. EaaS models often take the form of a subscription for a service company's electrical devices or energy usage management to supply the desired energy service.

[Global Energy As A Service Market Trends](#)

Partnerships and agreements among companies are key trends shaping the energy as a service market outlook. The companies operating in the energy as a service market are undergoing partnerships and agreements to meet consumer demand. For instance, in August 2021, the Engie group signed an agreement with Google LLC, a US-based multinational technology company, to provide carbon-free electricity in Germany. The agreement will help Google meet its carbon-free energy goals for its data centers, cloud regions, and offices throughout the world by 2030. Engie will assemble and negotiate an energy portfolio to supply Google with renewable energy (solar and wind) to ensure that all of its German activities are approximately 80 percent carbon-free by 2022. Engie SA is a France-based utility company that operates in the fields of the

energy transition; electricity generation; distribution; natural gas; nuclear power; renewable energy; and petroleum. Also, in August 2020, Schneider Electric partnered with Huck Capital to deliver energy-as-a-service, enabling commercial buildings to easily convert to renewable energy. The partnership provides a unique approach for building owners and operators that wish to migrate to renewable energy to reduce emissions, boost resiliency, and lower costs without investing in renewable energy assets or relying on specialists to operate the microgrid. Schneider Electric is a France-based company that provides energy and automation digital solutions.
