COVID-19 Scenario Analysis:

Corona virus has spread all over the world and most of the countries are adopting lockdown measures to control the spread of the virus for securing public health. All business and production activities are fully shut down except food and medical sector or other, leading toward economic crisis in the country. Manufacturing and production functions are stopped which has slowed down the business and inactive trade and transportation has fully disrupted the supply chain because of which companies can face big losses in near future.

Top Impacting Factors: Market Scenario Analysis, Trends, Drivers and Impact Analysis

With the growing awareness about health issues, people are shifting toward organic products, which can be the key factor that drives the growth of the global [organic alcoholic beverages market](#). Organic alcohols are synthetic pesticides free and do not have flavoring & preservatives that fulfill the need and requirements of consumers. However, beverages can be expensive that cannot be affordable. This limits the market growth.
