New Products, New Partnerships, New Opportunities:

With the help of Dr. Bryan Doner, President & Co-Founder of Aztec Wellness Group (a Medical Cannabis Organization), Cannabidiol Life registered Costa Rica's first-ever [CBD Gummy edible product](#).

CBD gummies, second to CBD oil, are the second most-

purchased CBD product in the world.

With Cannabidiol Life's newly registered products came exciting new partnerships, providing consumers in Costa Rica tremendous access to high-quality, hemp-based cannabidiol (CBD) on a much grander scale.

- Auto Mercado is Costa Rica's premier high-end grocery chain with 25 locations countrywide.
- Vindi is a very popular, culture-driven convenience store chain with 20 locations throughout the country.
- Distribution Partnership, Cannabidiol Life strategically partnered with perhaps Costa Rica's largest pharmacy distribution company which services over 900 independent pharmacies throughout the country.

"I'm honored, proud, and thrilled with our newly formed partnerships within the country of Costa Rica. Together, we will provide hundreds of new locations throughout the country where the Costa Rican people can access physician-recommended CBD products in a safe, responsible, and supportive way," said Christopher Visser, President & Founder of Cannabidiol Life.

A History In Increasing Global Awareness of CBD:

In early 2017, Cannabidiol Life entered the CBD industry in the United States by becoming the first education-based CBD brand, publishing 72 pages of comprehensive CBD education never before available to the general public.

In 2020, 2021, and now 2022, respectively, Cannabidiol Life continues to increase the global awareness of CBD by introducing and registering specific CBD products in countries that have never seen or previously had access.

- In 2020, Cannabidiol Life formulated a unique full spectrum CBD oil product to be prescribed by doctors in Brazil for patients suffering from chronic pain.
- In 2021, Cannabidiol Life made CBD Capsules available in Peru for the first time.
- In 2022, Cannabidiol Life brings CBD gummies to the beautiful shores of Costa Rica.

According to Christopher, "These feats, in my opinion, are invaluable to our brand because I believe it makes us an integral part of the growth of the CBD industry, especially within the Americas."

As the CBD market in Costa Rica continues to grow, Dr. Bryan Doner and Cannabidiol Life strongly suggest that consumers follow the guidance of the Ministry of Health; only acquire products from authorized establishments and always verify the sanitary registration number printed on the label.
