

VAYA SPACE CEO SELECTED TO SPEAK AT INTERNATIONAL SPACE CONVENTION 2022

The Impact of Green Technology on Space Economy

COCOA, FLORIDA, UNITED STATES, August 2, 2022 /EINPresswire.com/ -- [Vaya Space](#), Inc., the vortex-hybrid engine rocket company and emerging leader in sustainable space access, announced that Chief Executive Officer Brent David Willis has been invited to speak at the [International Space Convention](#) (ISC) September 9-11 in Bursa, Turkey.

Willis will present "Disrupting the Economics and Competitive Landscape of Space - Financial and Environmental Impact of Emerging New Green Technologies." In addition, he will participate in the panel discussion "Innovation and Commercialization in Space." Vaya Space developed a sustainable and green vortex-hybrid rocket engine that is expected to revolutionize the commercial space sector and has recently entered into [contracts with NASA and with a number of major satellite and satellite](#) constellation companies.

The International Space Convention will feature world-renowned space experts, scientists, and industry leaders on the topics of Earth and Deep Space Observation, SatCom and Data Analysis, Human Space Missions, Space Law and Regulations, Commercial Space Travel, Financial Outlook of the Space Industry, and Funding Opportunities for Emerging Space Start-Ups. Purchase your tickets to attend in-person or online here.

The graphic is a promotional poster for the International Space Convention 2022. It features a dark blue background with a subtle pattern of white dots and lines, resembling a star map or orbital paths. A large, stylized image of Earth's horizon is visible on the right side. The text is white and blue. At the top, it says "INTERNATIONAL SPACE CONVENTION 2022" in large, bold, white capital letters. Below that, in smaller white capital letters, is "SEPTEMBER 9-10-11" and "BURSA, TURKEY". A blue horizontal bar contains the text "ISC 2022 SPEAKER" in white. Below this, the name "Brent David Willis" is written in white. To the right of the name is a circular portrait of Brent David Willis, a man with short brown hair, wearing a blue button-down shirt, smiling. Below the portrait, there is a short bio in white text: "Brent is currently CEO for Vaya Space, a vortex-hybrid-engine rocket company with both US and Brazilian operations that utilizes more than 2 million recycled thermoplastics per launch, produces thrust of over 600 kN, and carries payloads of over 1,000 kg to low earth orbit." At the bottom of the graphic, it says "Brent Willis presents at International Space Convention" in white. On the far right, there is a vertical hashtag "#ISC2022" in white.

INTERNATIONAL SPACE CONVENTION 2022
SEPTEMBER 9-10-11
BURSA, TURKEY

ISC 2022 SPEAKER

Brent David Willis

Brent is currently CEO for Vaya Space, a vortex-hybrid-engine rocket company with both US and Brazilian operations that utilizes more than 2 million recycled thermoplastics per launch, produces thrust of over 600 kN, and carries payloads of over 1,000 kg to low earth orbit.

About Vaya Space, Inc.

Vaya Space is a privately-owned, vortex-hybrid rocket company based on the Space Coast of Florida with subsidiary operations in Brazil. Vaya Space has developed breakthrough and patented technologies that transform access to space. Vaya was created in 2017 by Sid Gutierrez, former Space Shuttle Commander and NASA's first US-born Hispanic astronaut. Launch Control's final words to Sid at liftoff were "Vaya con Dios" vs. their traditional "Godspeed," and following this inspiration Vaya was born.

Vaya's unique vortex-hybrid rocket engines utilize the equivalent of two million recycled plastic bottles with each launch, generate lower greenhouse emissions with zero black carbon/soot, and overcome issues associated with traditional liquid bi-propellant and solid rockets to transform the affordability, safety, and sustainability of space access.
