The scanner market consists of sales of scanners by entities (organizations, sole traders and partnerships) that provide scanners, which are input devices that can be connected to computers to optically scan images, print texts, handwriting, or objects and convert them to digital images. Only goods and services traded between entities or sold to end consumers are included.

## [Global Scanner Market Trends](#)

According to the scanner market overview, the technological advances are shaping the market. Scanner-based businesses are continually investing in the creation of emerging technology to enhance their company revenue. For instance, in March 2020, Epson, a Japan-based Electronics company launched Epson WorkForce DS-3000 and DS-32000 A3 sheetfed scanners for business. With strong media versatility, these new scanners deliver high-speed image capture of up to 90ppm (180ipm), making them the perfect entry point to the digital workflow of an organization and capable of scanning a variety of documents, from large-bound documents to passports.

## [Global Scanner Market Segments](#)

The global scanner market is segmented:

By Type: Flatbed Scanner, Sheet-Fed Scanner, Drum Scanner, Handheld Scanner, Others

By End-User: Individual Use, Commercial Use

By Distribution Channel: Online Store, Offline Store

By Geography: The global scanner market analysis report is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.
