

GLO Science Launches NEW 16-Min Teeth Whitening Treatment

GLO PRO POWER+ Brings Breakthrough Whitening Tech Into The Dental Practice For Fast Whitening Treatment

NEW YORK CITY, NEW YORK, UNITED STATES, August 3, 2022

/EINPresswire.com/ -- Whiten without compromise: [GLO Science](https://www.glo-science.com/), the award-winning New York City oral care company co-founded by world-renowned celebrity dentist and oral health expert, Dr. Jonathan B. Levine and prestige beauty expert Stacey Levine, are thrilled to announce the launch of the next generation of GLO Science in-office teeth whitening technology: GLO PRO POWER+. The new technology allows patients to achieve their brightest, whitest smiles in only 16-minutes total treatment time at their dentist - without sensitivity.

GLO Pro Power+ Brings Breakthrough Whitening Tech Into Dental Practices Across the US

The latest in-office technology offers quick and result-driven treatment so users can achieve their best smile yet. This professional-strength treatment is available exclusively through thousands of dental practices throughout the US. Consumers should inquire with their dentist to schedule a GLO PRO POWER+ treatment or locate a certified GLO Science Professional dental practice near them at [glo-science.com/dentistfinder](https://www.glo-science.com/dentistfinder).

“This is one dental visit you will look forward to and enjoy,” says Shoshana Glickman, GLO Science, Inc. Executive Vice President. “The patented mouthpiece creates a pleasant and relaxing warming sensation in your mouth, and you have complete freedom of movement while whitening with no pain or sensitivity! Within minutes, you’ll be able to share your brightest, whitest smile.”

GLO PRO POWER+ is the ultimate summertime, self-care spa treatment for the mouth. GLO PRO POWER+ whitens up to 12 shades whiter in only 16 minutes - a fraction of the amount of time of other in-office teeth whitening treatments. Plus, unlike other treatments, GLO PRO POWER+ is pain-free even for those who have experienced sensitivity in the past.

The genius behind this new innovative teeth technology is none other than the revolutionary teeth expert, Dr. Jonathan B Levine. Dr. Levine created and patented G.L.O. (Guided Light Optics) - the only teeth whitening tool powered by a warming mouthpiece that boosts efficacy to achieve faster results without pain or sensitivity. GLO Science was born when Dr. Levine's wife, the right brain behind the brand, and business partner, Stacey J. Levine, brought soul to the science and piloted GLO Science to major beauty retailers like Sephora, Bloomingdale's, and Dermstore.

Whiter, brighter teeth with the GLO PRO POWER+ is the perfect compliment to a new summer vacation tan. GLO PRO POWER+ 16-minute teeth whitening treatment is available only at the dentist's office. Ask a dentist or find a GLO dentist near you at [gloscience.com/dentistfinder](https://www.gloscience.com/dentistfinder). Let your smile be your number one beauty secret this summer.
