Bill represented 360 Legal at ALFN's ANSWERS 2022 in New Mexico as our Vice President of Business Development and

Client Relations. At ANSWERS, there were several vendors speaking about their services. It is becoming increasingly important to evaluate and verify where those services are being performed. Is your e-Filing vendor U.S. based, or do they offshore work to save a few bucks on labor costs? If your firm's work is being sent to Panama, what advantage exactly does it give your firm? In today's regulatory environment, what is allowed today might not be permissible

tomorrow. Does offshoring put your firm and employees in a better position with the CFPB or other GSE? More importantly, is this Client First service? Nope, it's Vendor First and not good. The awesome part is that you don't have to settle for Vendor First. All of 360 Legal's services are 100% U.S. based. You will never get substandard Vendor First service from 360 Legal. Everything we do is client-focused, 100 % Client First, and 100% U.S. based.

If your Legal Service provider is not delivering Client First services, offshoring your work, or there are days when you don't feel valued as a client, drop us an email or call at (888) 360-5345. 360 Legal will make the insanity stop. You don't have to settle for Vendor First or Client eventually service, offshored work, or poor service performance; there are other options in the marketplace. We will show you the difference working with a Client First 100% U.S.-based vendor can make for your firm.

You, your firm, your clients, and your staff deserve better!
