IONM systems segment accounted for nearly half of the total market in 2015. IONM systems help in the identification of neural structures during a surgery. This helps the surgeons to prevent any damage to the nervous system, which may be caused during the surgery and reduce post-operative complications. Thus, IONM systems identify any progressive threat to the nervous system and alert the surgeon prior to reaching the patients threshold for injury.

Ageing population, increase in prevalence of chronic disorders, applications of IONM in different surgeries, and risk management through IONM during complex surgeries drive the market. However, low awareness of IONM in developing nations and lack of skilled professionals restrain the market growth. Increase in medical tourism and growth opportunities in the emerging economies of the Asia-Pacific and LAMEA regions are expected to provide several opportunities for key players.

Outsourced IONM monitoring is growing at a fast pace due to its benefits over insourced monitoring. Now-a-days, hospitals do not prefer insourced monitoring as they have to appoint a full-time employee with the required skill set and they cannot offer the training standardization required to improve the quality of service. Thus, outsourced monitoring is in demand among hospitals and ASCs, and the market gradually shifts toward outsourced monitoring services.

Which market perspectives are enlightened in the Intraoperative Neuromonitoring market report?

Executive Summary: It covers a summary of the most vital studies, the Worldwide Intraoperative Neuromonitoring market increasing rate, modest circumstances, market trends, drivers and problems as well as macroscopic pointers.

Study Analysis: This covers major players, vital market segments, the scope of the products offered in the Intraoperative Neuromonitoring market, the years measured and the study points.

Competitive Analysis: In this segment each player is screened based on a products, services, value, SWOT analysis, growth and other significant features.

Geographic Analysis: This Intraoperative Neuromonitoring market report analyses data on the basis of production, sales, imports & exports, and key players in all regional markets.

Intraoperative Neuromonitoring Market Segments and Sub-segments::

Intraoperative Neuromonitoring Market by Key Players: Medtronic plc, NuVasive, Inc., Computational Diagnostics, Inc., SpecialtyCare, Natus Medical Incorporated., IntraNerve, LLC, inomed Medizintechnik GmbH, Accurate Monitoring LLC, Nihon Kohden Corporation and Moberg Research, Inc., Argos Neuromonitoring LP, Medsurant Holdings, LLC, NeuroMonitoring Technologies, Inc. and Cadwell Industries, Inc.

Intraoperative Neuromonitoring Market By Products & Services: Systems, Accessories, and Services

Intraoperative Neuromonitoring Market By Source Type: Insourced Monitoring and Outsourced Monitoring

Intraoperative Neuromonitoring Market By Application: Spinal Surgery, Neurosurgery, Vascular Surgery, ENT Surgery, and Orthopedic Surgery

Intraoperative Neuromonitoring Market By End User: Hospitals and Ambulatory Surgical

Centers

Interpretative Tools Used in Market Analysis: The methodical tools including SWOT analysis, Porter's five forces analysis, and investment return examination were used while breaking down the development of the key players performing in the market.

Growth Indicators in the Market: This section of the report covers the indicators that contains mergers & acquisitions, R&D, new product development, joint ventures, and associations of leading participants working in the market.

Key Questions Answered:

Who are the leading players involved in Intraoperative Neuromonitoring Market?

Which are the major regions covered in Intraoperative Neuromonitoring Market report?

Which is the leading revenue-generating region in Intraoperative Neuromonitoring Market?

Which is the most influencing segment growing in the Intraoperative Neuromonitoring market report?

What are the key trends in the Intraoperative Neuromonitoring market report?

What is the total market value of Intraoperative Neuromonitoring market report?

Table of Content

Chapter One: Industry Overview

Chapter Two: Major Segmentation (Classification, Application and etc.) Analysis

Chapter Three: Production Market Analysis

Chapter Four: Sales Market Analysis

Chapter Five: Consumption Market Analysis

Chapter Six: Production, Sales and Consumption Market Comparison Analysis

Chapter Seven: Major Manufacturers Production and Sales Market Comparison Analysis

Chapter Eight: Competition Analysis by Players

Chapter Nine: Marketing Channel Analysis

Chapter Ten: New Project Investment Feasibility Analysis

Chapter Eleven: Manufacturing Cost Analysis

Chapter Twelve: Industrial Chain, Sourcing Strategy and Downstream Buyers
