The increasing incidence of metastatic cancer is one of the significant factors influencing the market growth.

Growing technological advancements and increased investments in imaging technologies are causative of the rapid growth of the metastatic cancer treatment market. Hologic, Inc., in November 2019, received approval from the US Food and Drug Administration (FDA) for its 3DQuorum™ Imaging Technology, driven by Genius AI™. The technology works simultaneously with Hologic's Clarity

HD™ high-resolution imaging technology and helps radiologists reduce tomosynthesis image volume by 66.0%. The breast imaging system owing to such advancements would produce higher-resolution 3D images, better workflow, and an improved mammography experience for

patents.
