Some Key Highlights from the Report

The Microorganism segment dominated the market with a share of 60.7% in 2019 due to the low

production cost and easy availability.

The Specialty enzymes are expected to register the highest CAGR of 7.0% over the forecast period due to the growing investments in the research & biotechnology sector and the pharmaceutical industry. Extensive research activities, growing demand for medicines, and increasing initiatives for funding are expected to drive the demand of the enzymes in the pharmaceutical industry and research & biotechnology sector.

Asia-Pacific is expected to register the highest CAGR of 7.4% over the forecast period due to the increasing urban population in countries such as China, Malaysia, India, and Indonesia, growing awareness regarding chronic disorders and the rising disposable income of the consumers.

Key participants include:

DuPont, Novozymes, DSM, Lonza Group, Amano Enzyme Inc., BASF SE, Advanced Enzyme Technologies, Hansen Holdings A/S, Associated British Foods plc, and Enzyme Development Corporation, among others.

The report, additionally, offers a comprehensive SWOT analysis and Porter's Five Forces analysis to offer a better understanding of the competitive landscape of the industry. It also covers strategies adopted by prominent players such as mergers and acquisitions, collaborations, joint ventures, product launches, and brand promotions, among others. The report aims to offer the readers a holistic understanding of the relevant features of the industry.

Emergen Research has segmented the global Enzymes Market on the basis of Source, Product, Application, and region:

Source Outlook (Revenue, USD Billion; 2017-2027)

Animals

Microorganisms

Plants

Product Outlook (Revenue, USD Billion; 2017-2027)

□ Proteases

□ Carbohydrase

□ Polymerases & Nucleases

□ Lipases

□ Others

Application Outlook (Revenue, USD Billion; 2017-2027)

□ Specialty Enzymes (Research & Biotechnology, Pharmaceuticals, Biocatalysts, Diagnostics)

□ Industrial Enzymes (Food & Beverage, Animal Feed, Wastewater, Biofuels, Detergents)

Analysis of the segments and their growth projection is carried out by extensive historical and current analysis of the market scenario. Further, the report offers details about the factors and features of the Enzymes Market Expected to boost the growth of the industry in the coming years.

Regional Outlook (Revenue, USD Million; 2017–2027)

North America

U.S.

Canada

Mexico

Europe

Germany

France

U.K.

Italy

Spain

BENELUX

Rest of Europe

Asia Pacific

China

India

Japan

South Korea

Rest of APAC

Latin America

Brazil

Rest of LATAM

Middle East & Africa

Saudi Arabia

UAE

South Africa

Turkey

Rest of MEA

Key Questions Answered in the Report:

What is the growth rate of the Enzymes Market?

What is the anticipated market valuation of Enzymes Market industry by 2027?

What are the key growth driving and restraining factors of the Enzymes Market?

Who are the prominent players operating in the market? What are the key strategies adopted by these companies?

What are the key opportunities and growth prospects of the Enzymes Market industry over the forecast period?

Which region is expected to show significant growth in the coming years?

About Us:

Emergen Research is a market research and consulting company that provides syndicated research reports, customized research reports, and consulting services. Our solutions purely focus on your purpose to locate, target, and analyze consumer behavior shifts across

demographics, across industries, and help clients make smarter business decisions. We offer market intelligence studies ensuring relevant and fact-based research across multiple industries, including Healthcare, Touch Points, Chemicals, Types, and Energy. We consistently update our research offerings to ensure our clients are aware of the latest trends existent in the market. Emergen Research has a strong base of experienced analysts from varied areas of expertise. Our industry experience and ability to develop a concrete solution to any research problems provides our clients with the ability to secure an edge over their respective competitors.
