Key Highlights From The Report

In June 2019, Signify N.V. was installed 20 Philips SunStay solar street lights in Infanta Elena Park in Seville, Spain, in one housing, these solar lights have an integrated solar panel, luminaire, charge controller, and battery. These lights are also compact and easy to assemble and require less maintenance.

Due to certain government influence, such as feed-in tariff and net metering, the grid-connected system is anticipated to witness significant growth over the forecast timeframe.

Due to the advantages, such as less maintenance, uniform mounting, long service life, ecofriendly, and no RF interference, the light pole segment is expected to dominate the market with a CAGR of 13.4%.

The Solar LED Street Lighting research report also includes an insightful study of the prominent players of the industry along with their business overview, strategic planning, and business expansion plans adopted by them. This assists the readers and business owners in formulating strategic expansion and investment plans. The report focuses on mergers and acquisitions, joint ventures, collaborations, partnerships, corporate and government deals, and others. The report also talks about the expansions these prominent players are vying for in the key regions of the market. The report focuses on the detailed analysis of the technological and product developments undertaken by these companies.

Emergen Research has segmented the global Solar LED Street Lighting Market on the basis of product, component, end-use, and region:

Product Outlook (Revenue, USD Billion; 2017-2027)

Grid Connected

Standalone

Component Outlook (Revenue, USD Billion; 2017-2027)

Solar Cell

Light Pole

LED lamps

End-Use Outlook (Revenue, USD Billion; 2017-2027)

Residential

Industrial
Commercial

Regional Outlook (Revenue, USD Billion; 2017-2027)

North America

U.S.

Canada

Mexico

Europe

Germany

UK

France

BENELUX

Rest of Europe

Asia Pacific

China

Japan

South Korea

India

Rest of APAC

Latin America

Brazil

Rest of LATAM

MEA

Saudi Arabia

UAE

Rest of MEA

The report addresses the following key points:

The report provides a forecast of market drivers, restraints, and future opportunities for the Solar LED Street Lighting market

The report further analyses the changing market dynamics

Regional analysis and segmentation of the market with analysis of the regions and segments expected to dominate the market growth

Extensive competitive landscape mapping with profiles of the key competitors

Revenue forecast, country scope, application insights, and product insights
