The Philippines wound care market was valued at \$51 million in 2017, and is projected to reach \$85 million by 2025, registering a CAGR of 6.5% from 2016 to 2022. The surgical wound care segment accounted for nearly two-fifths share of the total market in 2017.

Wound care management involves the use of dressing products coupled with drug formulations and offers several benefits such as lower healing time. Wound care products are widely adopted to treat chronic and acute wounds. Advanced wound care products are emerging as a standard solution to treat acute and chronic wounds. Surgical suture is a medical device used to stitch the cutaneous wounds, and to close surgical incision site. It is used to hold internal organs, skin,

blood vessels, and all other tissues of the human body. Traditional wound care products are increasingly being substituted with advanced wound care products due to their efficiency and effectiveness to treat wounds by enabling faster healing.

Surge in geriatric population & favorable demographics; rise in incidence of diabetes, obesity, and chronic conditions; technological advancements in complex wound management; and increase in awareness to reduce healthcare costs drive the growth of the market. However, reluctance in adoption of new technologies, development of substitute products, and lack of sufficient evidence restrain the growth of the market. Conversely, increased focus toward advanced treatment protocols and significant unmet needs in wound care are expected to offer remunerative opportunities for market players.

Which market perspectives are enlightened in the Wound Care market report?

Executive Summary: It covers a summary of the most vital studies, the Worldwide Wound Care market increasing rate, modest circumstances, market trends, drivers and problems as well as macroscopic pointers.

Study Analysis: This covers major players, vital market segments, the scope of the products offered in the Wound Care market, the years measured and the study points.

Competitive Analysis: In this segment each player is screened based on a products, services, value, SWOT analysis, growth and other significant features.

Geographic Analysis: This Wound Care market report analyses data on the basis of production, sales, imports & exports, and key players in all regional markets.

Wound Care Market Segments and Sub-segments::

Wound Care Market by Key Players: 3M Company, Smith & Nephew Plc., Coloplast A/S, Medtronic plc, ConvaTec Group Plc, Cardinal Health, Inc., BSN Medical GmbH, Mundipharma International Ltd., B. Braun Melsungen AG, and Urigo Medical, Mebo International Group, Total Wound Care Solution Corporation Philippines, ASO Philippines, Inc., Medline Industries, Inc., and others.

Wound Care Market By Product: Advanced Wound Care, Surgical Wound Care, and Traditional/Basic Wound Care

Wound Care Market By Application: Chronic Wounds and Acute Wounds

Wound Care Market By End User: Hospitals and Community Health Service Centers
