

# The Steinberg Law Group - Mesothelioma & Asbestos Lung Cancer Lawyers

*The Steinberg Law Group – Mesothelioma & Asbestos Lung Cancer Lawyers – Jointly Responsible for Over \$500,000,000 in Verdicts & Settlements Since 2001*

LOS ANGELES, CALIFORNIA, USA, August 4, 2022 /EINPresswire.com/ -- Our [Mesothelioma](#) Options Help Center of California is dedicated to providing top quality legal and medical assistance to those stricken with mesothelioma or [asbestos](#)-related [lung cancer](#). Anyone wishing to discuss their legal and/or medical options should call (888) 891-2200 to speak directly with an attorney from The Steinberg Law Group.

The Steinberg Law Group has decades of experience in handling mesothelioma and other asbestos-related cases. With offices in New York, California and Texas, The Steinberg Law Group has a national footprint that helps win the best possible financial compensation for clients.

Asbestos exposure occurred mostly between the 1940s and the early 1980s. Among the most prevalent trades that encountered large quantities of asbestos include: power plant workers, maritime workers, industrial workers, plumbers, pipefitters, electricians, mechanics, machinists, miners, railroad workers and construction workers, to name a few. Since the latency period for mesothelioma patients is from 10 to 50 years, most people diagnosed with mesothelioma or asbestos-related lung cancer in 2022 were exposed decades ago.

## THE STEINBERG LAW GROUP

The Steinberg Law Group has decades of proven experience and the resources to help veterans obtain the financial compensation they deserve. All of it.

We support our military veterans.

The size and geographical diversity of California make it the state with the most asbestos-related deaths in country. According to the California Department of Public Health, 45 of California's 58 counties have naturally occurring asbestos deposits, including El Dorado Hills, which is one of the largest naturally occurring asbestos deposits in the world. California was also home to the final asbestos operation (the King City Asbestos Company mine in Coalinga) in the United States, which was closed in 2002.

Known military-related jobsites and companies with asbestos exposure in California include, but are not limited to, Hunters Point Naval Shipyard, Concord Naval Weapons Station, Alameda Naval Air Station, Naval Air Station Moffett Field, Edwards Air Force Base, Mather Air Force Base, George Air Force Base, Travis Air Force Base, Castle Air Force Base, March Air Force Base, McClellan Air Force Base, Norton Air Force Base, El Toro Marine Corps Air Station, Barstow Marine Corps Logistics Base, Camp Pendleton Marine Corps Base, Sacramento Army Depot, Sharpe Army Depot, Riverbank Army Ammunition Plant, Tracy Defense Depot and Moore Dry Dock Company.

Other known jobsites, companies and towns with asbestos exposure in California include, but are not limited to, California Zonolite/W.R. Grace & Company facility in Glendale, Coalinga Asbestos Mine, Atlas Asbestos Mine, South Bay Asbestos Area, Clear Creek Management Area, Industrial Waste Processing and Purity Oil Sales, Inc. in Fresno.

For medical treatment regarding mesothelioma or asbestos-related lung cancer, call (888) 891-2200 so a member of The Steinberg Law Group can determine which hospital/doctor in our

We can help you find the top doctors from coast to coast.

Inhaling small amounts of asbestos is enough to cause mesothelioma decades later.

network is most convenient for you.

States with the highest incidence of mesothelioma include Oregon, Washington, Louisiana, Minnesota, North Dakota, Michigan, Illinois, Virginia, West Virginia, Ohio, Pennsylvania, New Jersey, Maryland, Massachusetts, Maine and Connecticut.
