

111MedCo Achieves 5,000 Reviews at a 4.5 Star Rating for their 10% Benzoyl Peroxide Acne Soap Bar on Amazon

After three years on the market, tens of thousands of bars sold and tens of thousands of satisfied customers 111MedCo celebrates the milestone of 5,000 reviews.

WILMINGTON, DE, USA, August 8, 2022 /EINPresswire.com/ -- [111MedCo](https://www.111MedCo.com) is pleased to announce that its [10% Benzoyl Peroxide Acne Soap Bar](#) has achieved 5,000 reviews on Amazon with an average rating of 4.5 stars after three years of sales.

Warren Buffet believes that feedback is a gift and says that "[honesty is a very expensive gift.](#)"

When products are sold on a platform that allows customers to leave reviews of any kind it's up to companies to welcome all of it; the good and the bad with open arms. In the right hands companies use this data to make adjustments and provide even better products.

In the case of 111MedCo, this feedback has helped to perfect the 10% Benzoyl Peroxide Soap Bar and has also helped to formulate a new medicinal soap bar to be launched this Fall incorporating 2% salicylic acid.

Bar soaps get skin clean, reduce waste, and may last longer. They are also making a resurgence due to their simplicity of packaging, only requiring paper and no plastic. They are also lighter to

Better for the environment. We only have a cardboard carton and no plastic.

Drug Facts	
Active ingredient Benzoyl peroxide 10%	Purpose Acne medication
Use for the treatment of acne; helps prevent new acne blemishes from forming.	
Warnings For external use only Do not use • If you have very sensitive skin • If you are sensitive to benzoyl peroxide. When using this product • skin irritation and dryness is more likely to occur if you use another topical acne medication at the same time. If irritation occurs, only use one topical acne medication at a time • avoid unnecessary sun exposure and use a sunscreen • avoid contact with the eyes, lips, and mouth • avoid contact with hair and dyed fabrics, which may be bleached by this product • skin irritation may occur, characterized by redness, burning, itching, peeling, or possibly swelling. Irritation may be reduced by using the product less frequently or in a lower concentration. Stop use and consult a doctor if • irritation becomes severe.	
Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away.	
Directions • using warm water, wash the affected area for 1 to 2 minutes • rinse well and pat dry with a clean towel • because too much drying of the skin may occur, start with 1 application daily, then gradually increase to 2 to 3 times daily if needed or as directed by a doctor • if bothersome dryness or peeling occurs, reduce application to once a day or every other day • if going outside, apply sunscreen after using the product • if irritation or sensitivity develops, stop use of both products and ask a doctor.	
Other information Store at controlled room temperature 59°-86°F (15°-30°C).
