As per The Business Research
Company's "Cellular or Mobile
Telephone Services Global Market
Report 2022", the cellular or mobile

telephone services market is expected to grow from \$196.85 billion in 2021 to \$211.48 billion in 2022 at a compound annual growth rate (CAGR) of 7.4%. The growth in the market is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. As per TBRC's [cellular or mobile telephone services market research](#) the market is expected to reach \$269.94 billion in 2026 at a CAGR of 6.5%. An increasing number of mobile subscribers is predicted to contribute to the growth of the cellular or mobile telephone services market over the forecast period.
