Based on component, the solution segment accounted for the highest share in 2020, holding around four-fifths of the total share, and is expected to maintain its lead position during the forecast period. However, the services segment is projected to manifest the largest CAGR of 19.5% from 2021 to 2030.

Impact of Covid-19 on Liquid Cooling Systems Market-

- Surge in demand for computer applications from residential and commercial sectors along with rise in demand for data center services led to the liquid cooling systems market growth during the Covid-19 pandemic.
- However, the demand for liquid cooling systems was reduced due to a decrease in spending by the manufacturing and automotive industries and shutdown of production facilities across the globe due to lockdown measures and unavailability of the workforce.
