Reports And Data

NEW YORK CITY, NEW YORK, UNITED STATES, August 5, 2022 /EINPresswire.com/ -- The global

<u>Paraxylene (PX) market</u> is expected to reach USD 97.69 Billion by 2027, according to a new report by Reports and Data. The growth of the market is attributed to the growing applications of paraxylene (PX) amongst the end-user industries.

Polyethylene terephthalate (PET) is a polymer produced from the organic chemicals ethylene glycol and terephthalic acid. It is a lightweight and robust plastic extensively used for packaging foods and beverages, particularly juices, soft drinks, and water. Moreover, it is popular for packaging peanut butter, salad dressings, cooking oils, shampoo, mouthwash, liquid hand soap, and window cleaner, among various other items. Special grades of polyethylene terephthalate are used for carry-home food containers and readymade food trays used in the oven or microwave.

The increasing use of PET in the textile industry is likely to drive the growth of the market in the upcoming years. The fabrics made from polyester fiber chain possess good elasticity, shape retention, wrinkle resistance, exceptional wash & wear performance, washability, and longevity, among others, and as a result, finds extensive application in various types of apparel fabrics. It is used to make fashionable dresses, weather-resistant clothing, and is a preferred material for children's wear. PET fiber is frequently blended with other fibers such as cotton, to get the combined benefits of both materials. It provides better tear-resistant as compared to cotton or other materials used in making clothing items. At present, over half of the global synthetic fiber is made from this PET

Further key findings from the report suggest

By application, purified terephthalic acid contributed to the largest market share in 2018 and is expected to grow at a rate of 9.3% in the forecast period. Purified Terephthalic Acid (PTA) is used to produce polyester coatings resins for utilization in the formulation of general automotive, appliance, industrial maintenance, and coil coatings, among others.

By distribution channel, the offline channel held a larger market share in 2018. Offline channel is the most preferred channel for distribution as it includes the opportunity for customers to create personal connections with business, which is beneficial in building loyalty By the end-user, the textile industry dominated the market in 2018. PET fabric, a synthetic fiber, is an economical alternative and has several benefits as compared to cotton. This synthetic fabric does not wear down quickly as well as it is flexible and resistant to shrinking and wrinkles.

The market in the Asia Pacific region contributed to the largest market share in 2018 and is expected to grow at a rate of 9.6% in the forecast period. The market dominance of the APAC region is mainly owing to the growth of the textile and construction industries in the region. Key participants include BASF SE, BP PLC, Exxon Mobil, Mitsubishi Gas Chemical Co. Ltd., Reliance Industries Ltd., Chevron Phillips Chemical Company, SINOPEC, Saudi Aramco, JXTG Nippon Oil & Energy Corporation, and CNPC, among others.

For the purpose of this report Reports and Data has segmented global Paraxylene (PX) market on the basis of type, application, and region:

Application Outlook (Volume, Kilo Tons; 2016-2027 and Revenue, USD Million; 2016-2027)

Purified Terephthalic Acid (PTA) Dimethyl Terephthalate (DMT) Others

Distribution Channel Outlook (Volume, Kilo Tons; 2016-2027 and Revenue, USD Million; 2016-2027)

Online Offline

Industry Verticals Outlook (Volume, Kilo Tons; 2016-2027 and Revenue, USD Million; 2016-2027)

Electronics Textile Packaging Construction Others

Key Regional Markets Covered in the Report:

North America (U.S.A., Canada, Mexico) Europe (Italy, U.K., Germany, France, Rest of Europe) Asia Pacific (India, China, Japan, South Korea, Australia, Rest of Asia Pacific) Latin America (Chile, Brazil, Argentina, Peru, Rest of Latin America)

Key Questions answered by the Report:

What is the expected year-on-year growth of the Paraxylene (PX) during the forecast period? What key trends are expected influence revenue growth of the market going ahead? Which region is expected to account for largest revenue share over the forecast period? Which key companies are profiled in the report?

Thanks for reading our report. For more details on customization, please connect with us to know more and our team will ensure the report is well suited to your needs.

About Reports and Data

Reports and Data is a market research and consulting company that provides syndicated research reports, customized research reports, and consulting services. Our solutions purely focus on your purpose to locate, target, and analyze consumer behavior shifts across demographics, across industries, and help clients to make smarter business decisions. We offer market intelligence studies ensuring relevant and fact-based research across multiple industries, including Healthcare, Touch Points, Chemicals, Products, and Energy. We consistently update our research offerings to ensure our clients are aware of the latest trends existent in the market. Reports and Data has a strong base of experienced analysts from varied areas of expertise. Our industry experience and ability to develop a concrete solution to any research problems provides our clients with the ability to secure an edge over their respective competitors.
