[Key Trends In The Drug Delivery Devices Market](#)

According to the drug delivery devices industry analysis, companies are collaborating with other companies within the industry in order to strengthen their product portfolio as well as to expand their footprint across different geographies. For example, in December 2019, Leo Pharma, a Danish pharmaceutical company, has collaborated with Portal Instruments to build Portal's advanced needle-free drug delivery system for use in conjunction with LEO Pharma's research and approved drug portfolio. This simplifies administration and removes the need for sharp containers at home, and also decreases the time required for self-injections.

Overview Of The Drug Delivery Devices Market

The drug delivery devices market consists of the sales of medical devices and equipment that are used for delivering specific drugs to a specific part of the body to cure chronic diseases such as cancer, infectious diseases, respiratory diseases, diabetes, cardiovascular diseases.
