

Global Air Quality Monitoring System Market Drivers, Trends And Restraints For 2022-2031

The Business Research Company's Air Quality Monitoring System Global Market Report 2022: Market Size, Trends, And Forecast To 2026

LONDON, GREATER LONDON, UK,
August 8, 2022 /EINPresswire.com/ --

As per The Business Research Company's "[Air Quality Monitoring System Global Market Report 2022](#)",

the air quality monitoring system market is expected to grow from \$5.05 billion in 2021 to \$5.57 billion in 2022 at a compound annual growth rate (CAGR) of 10.2%. The growth is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The market is expected to reach \$7.63 billion in 2026 at a CAGR of 8.2%. The increasing levels of air pollution is expected to propel the growth of the air quality monitoring system market in the coming years.

Air Quality Monitoring System Global Market Report 2022 from TBRC covers the following information:

Market Size Data

- Forecast period: Historical and Future
- By region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.
- By countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

Market Segmentation

- By Product Type: Indoor, Outdoor
- By Component: Hardware, Software
- By Pollutant: Chemical, Physical
- By End User: Industrial, Commercial, Residential
- By Geography: The global air quality monitoring system market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, North America holds the largest share in the market.

Major market players such as Thermo Fisher Scientific, Emerson Electric, General Electric, Siemens AG, Teledyne Technologies, PerkinElmer Inc., Agilent Technologies Inc., TE Connectivity, 3M, Honeywell International Inc, Horiba Ltd, Merck KGaA, TSI, Tisch Environmental, Testo, Plume Labs, Aeroqual, and Forbes Marshall.

Trends, opportunities, strategies and so much more.

Air Quality Monitoring System Global Market Report 2022 is one of The Business Research Company's comprehensive reports that provides an overview of air quality monitoring system global market. The market report analyzes [air quality monitoring system global market size](#), air quality monitoring system global market growth drivers, air quality monitoring system global market segments, air quality monitoring system market major players, air quality monitoring system global market growth across geographies, air quality monitoring system market trends and air quality monitoring system market competitors' revenues and market positioning. The air quality monitoring system market report enables you to gain insights on opportunities and strategies, as well as identify countries and segments with the highest growth potential.
