

# Textile Chemicals Market Economic Growth, Historical Trends and Forecast Report 2021-2028 | Types, Applications

*Rising demand for technical textiles and increasing usage of biodegradable and low VOC materials for textile manufacturing are some key factors driving market*

VANCOUVER, BC, CANADA, August 8, 2022 /EINPresswire.com/ -- The global [textile chemicals market](#) size reached USD 21.23 Billion in 2020 and is expected to register a revenue CAGR of 4.3% during the forecast period, according to latest analysis by Emergen Research. Rising demand for technical

textiles as well as increased use of biodegradable and low Volatile Organic Compound (VOC) materials in textile manufacturing are some key factors driving global textile chemicals market revenue growth. In addition, increasing urbanization and industrialization in countries across the globe are trends projected to continue to support revenue growth of the market between 2021 and 2028.

“

Textile Chemicals Market  
Size – USD 21.23 Billion in  
2020, Market Growth – at a  
CAGR of 4.3%, Market  
Trends – Increasing  
urbanization and  
industrialization globally”

Technical textile segment revenue is expected to expand at a significantly rapid CAGR during the forecast period due to increasing usage of textile chemicals in technical textiles. Usage is expected to rise due to rising awareness about better function and uses of such products in various industries.

Coating & sizing agents segment is expected to register a significantly robust revenue growth rate over the forecast period. Sizing chemicals are widely used to improve yarn abrasion strength and resistance in weaving. Use of sizing chemicals lowers weaving hazards, including yarn fraying and breakage during weaving process.

Asia Pacific is expected to register a significantly rapid revenue growth rate over the forecast period. Low manufacturing costs in countries in Asia Pacific, along with rapid introduction of cutting-edge technologies in the manufacturing process by companies is expected to drive revenue growth of the market in this region.

Key players in the global textile chemicals market include BASF SE, Wacker Chemie AG, Solvay S.A., Huntsman Corporation, The Dow Chemical Company, Sumitomo Chemicals Co. Ltd., The Lubrizol Corporation, Tata Chemicals Limited, Kemira Oyj, and Evonik Industries AG.

The report offers precise information about pricing, capacity, value, gross revenue, and profit of the market. The primary aim of the report is to offer in depth details about market size, revenue growth and overall market dynamics to readers, stakeholders, companies to strengthen their share in the global Textile Chemicals market. It also provides in depth information about key factors, restraints, limitations, challenges along with various market segmentations such as product type, application and regional bifurcation.

Emergen Research has segmented the global textile chemicals on the basis of product type, fiber type, application, and region:

Product Type Outlook (Volume Tons, Revenue, USD Billion; 2018–2028)

Colorants & Auxiliaries

Fixative

Dispersants & Levelant

UV Absorber

Other

Coating & Sizing Agents

Finishing Agents

Flame Retardants

Repellent and Release

Antimicrobial & Anti-inflammatory

Other

Bleaching Agents

Desizing Agents

Yarn Lubricants

Scouring Agents

Surfactants

Detergents & Dispersing Agents

Wetting Agents

Lubricating Agents

Emulsifying Agents

Others

## Natural Fiber
