Global Active Wound Care Market Scope and Market Size

The active wound care market is segmented on the basis of product type, indication, wound type and end user. The growth amongst these segments will help you analyze meager growth segments in the industries and provide the users with a valuable market overview and market insights to help them make strategic decisions for identifying core market applications.

Product Type

- Allograft
- Synthetic Skin Grafts
- Xenografts
- Collagen Dressings
- Amniotic Tissue Grafts
- Growth Factors

The growth factors is further sub segmented into platelet derived growth factor (PDGF), platelet rich plasma (PRP), epidermal growth factors (EGF), basic fibroblast growth factors (BFGF), granulocyte colony stimulating factor (G-CSF), talactoferrin ALFA, thrombin peptide and keratinocyte growth factor (KGF).

Indication

- Burns
- Diabetic Foot Ulcers
- Pressure Ulcers
- Lower Limb Ulcers

On the basis of indication, the active wound care market is segmented into burns, diabetic foot ulcers, pressure ulcers and lower limb ulcers.

Wound Type

- Chronic Wounds
- Acute Wound

The chronic wounds are further sub-segmented into pressure ulcers, diabetic foot ulcers, venous ulcers and other chronic wounds. The acute wound is further sub segmented into surgical and traumatic wounds and burns.

End User

- Hospitals
- Clinics
- Ambulatory Surgical Centers

Diagnostic Centers
Home Care Settings
Others
