

Aminoethylethanolamine Market Trend, Key Business Opportunities, Impressive Growth Rate and Analysis to 2030

Increasing use of AEEA for manufacturing wet-adhesion additives for latex paints is Major key factors Drives Growth

NEW YORK CITY, NEW YORK, UNITED STATES, August 8, 2022

/EINPresswire.com/ -- The latest

market analysis report presented by

Reports and Data is titled '[Global Aminoethylethanolamine Market.](#)' The report provides a comprehensive view of the Aminoethylethanolamine market, including in-depth information about the key market segments and sub-segments. In this report, our team of market researchers has highlighted the key market dynamics such as market revenue growth drivers, restraints, trends, opportunities, supply & demand ratios, shifting consumer tastes & preferences, changing production & consumption patterns, and technological breakthroughs. Key challenges and barriers to industry growth, such as stringent government regulations and policies and potential market threats and risks, have also been assessed in the report. The latest report offers quantitative and qualitative market insights, and hence, highlights the industry annual sales, regional outlook, and industry statistics.

The COVID-19 impact: The growing COVID-19 pandemic has led to the weakening demand for coatings in electronics, automotive, construction, and white goods. The market has the capacity to bounce back, but it completely depends on the duration of the lockdown, and also the impact of the virus on the economy. Even though the overall demand of the market is falling, the demand for Aminoethylethanolamine Market is expected to rise in the coming years.

The global Aminoethylethanolamine (AEEA) market size was significantly robust in 2021 and is expected to register a rapid revenue CAGR over the forecast period. Increasing use of AEEA for manufacturing wet-adhesion additives for latex paints, industrial production of fuel and oil

Reports And Data

additives, and as a building block for fabric softeners and surfactants are some key factors expected to drive market revenue growth over the forecast period. Aminoethylethanolamine makes the textiles less harsh and more pleasing to touch. It is also used as an intermediate to produce polycarboxylic acids and chelating agents. In addition, 2-aminomethylethanolamine is increasingly used as an absorbent for carbon dioxide from post-combustion exhaust gases. This is another factor expected to contribute to revenue growth to a significant extent over the forecast period.

Aminoethylethanolamine (AEEA) is a diamine comprising two atoms of nitrogen that effectively absorb carbon dioxide and one OH group that boosts solubility of AEEA in aqueous solutions. AEEA exhibits higher performance as compared to other industrial amines owing to higher solubility, lower vapor pressure, greater heat absorption, higher absorption capacity, and lower desorption energy. Aminoethylethanolamine (AEEA) is a member of the class of ethyleneamines and is widely used in a broad array of applications. AEEA is a colorless liquid and has a higher viscosity as compared to Ethylenediamine (EDA) and Ethylenediaminetetraacetic acid (EDTA). AEEA is chiefly used as a building block in the manufacture of corrosion inhibitors, weight-strength resins, asphalt additives, lube oil additives, epoxy curing agents, coatings, urethanes, ore flotation, polyamide resins, and chemical intermediates, among others. Aminoethylethanolamine is also used in the manufacture of paper products and water treatment products.

Major Companies in the Market Include:

BASF SE
Nouryon
Dow Chemical Company
Parsol Chemicals Pvt. Ltd.
Huntsman Corporation (HUN)
Restek Corporation
Otto Chemie Pvt. Ltd.
PolyOne Corporation
Sanitized AG
BioCote Limited

Regional Outlook

For comprehensive understanding of market dynamics, the global Aminoethylethanolamine market is analysed across key geographies namely: North America (United States, Canada and Mexico), Europe (Germany, France, UK, Russia and Italy), Asia-Pacific (China, Japan, Korea, India and Southeast Asia), South America (Brazil, Argentina, and Colombia), Middle East and Africa (Saudi Arabia, UAE, Egypt, Nigeria and South Africa). Each of these regions is analysed on basis of market findings across major countries in these regions for a macro-level understanding of the market.

Significant Features that are under Offering and Key Highlights of the Reports:

- Detailed overview of the Aminoethylethanolamine Market
- Changes in industry market dynamics
- Detailed market segmentation by type, application, etc.
- Historical, current and projected market size in terms of quantity and value
- Recent industry trends and developments
- Competition situation of Aminoethylethanolamine Market
- Key companies and product strategies
- Potential niche segment/region showing promising growth.

Finally, the Aminoethylethanolamine Market Report is the authoritative source for market research that can dramatically accelerate your business. The report shows economic conditions such as major locales, item values, profits, limits, generation, supply, requirements, market development rates, and numbers.

About Us:

Reports and Data is a market research and consulting company that provides syndicated research reports, customized research reports, and consulting services. Our solutions purely focus on your purpose to locate, target, and analyze consumer behavior shifts across demographics, across industries, and help clients to make smarter business decisions. We offer market intelligence studies ensuring relevant and fact-based research across multiple industries, including Healthcare, Touch Points, Chemicals, Products, and Energy. We consistently update our research offerings to ensure our clients are aware of the latest trends existent in the market. Reports and Data has a strong base of experienced analysts from varied areas of expertise. Our industry experience and ability to develop a concrete solution to any research problems provides our clients with the ability to secure an edge over their respective competitors.
