

Hexamine Market Price Trends, Size Analysis, Business Scope, Drivers and Growth Opportunities by 2027

SHERIDAN, WYOMING, UNITED STATES, August 9, 2022 /EINPresswire.com/ -- The latest report by IMARC Group, titled "Hexamine Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2022-2027," offers a comprehensive analysis of the industry, which comprises insights on [Hexamine Market Price Trends](#)

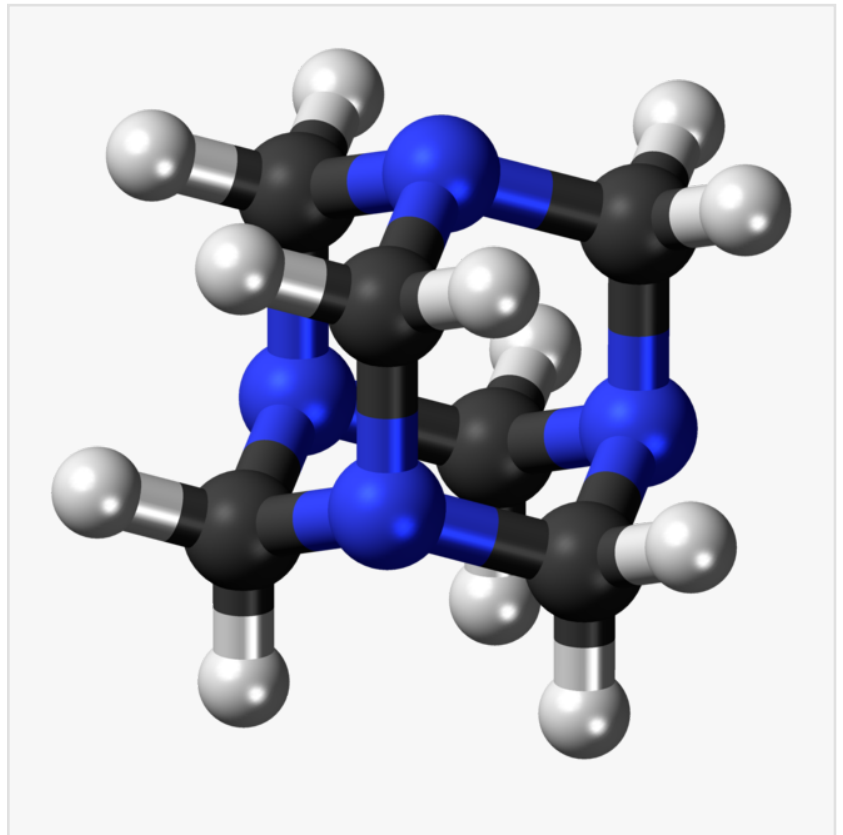

The global hexamine market is expected to exhibit a CAGR of 4.6% during 2022-2027. Hexamine (C₆H₁₂N₄), also called hexamethylenetetramine (HMT), represents an odorless white crystalline powder with a cage-like structure that is usually soluble in polar organic solvents and water. It is prepared by treating aqueous

formaldehyde with ammonia and evaporating as well as crystallizing the solid product. Hexamine is extensively utilized in the formulation of phenolic resins and phenolic resin molding compounds. In addition to this, it finds wide-ranging applications as a binder in the manufacturing of brake and clutch linings, non-woven textiles, abrasive items, fireproof materials, etc.

We are regularly tracking the direct effect of COVID-19 on the market, along with the indirect influence of associated industries. These observations will be integrated into the report.

Hexamine Market Trends and Drivers:

The widespread product utilization by [fire](#)-protection laboratories to test the flammability of rugs and carpets is primarily driving the hexamine market. Additionally, the inflating need for this compound as a versatile reagent during several chemical reactions, such as duff, delepine, sommelet, etc., is further catalyzing the market growth. Besides this, the escalating demand for agrochemicals, including herbicides, fungicides, insecticides, etc., which have hexamine as a major raw material, is acting as another significant growth-inducing factor. Moreover, the growing popularity of hexamine in treating chronic urinary tract infections, owing to its antiseptic properties, is also positively influencing the global market. Apart from this, the rising adoption of HMT in the production of lightweight fuel tablets used by hobbyists, campers, relief organizations, etc., to heat camp food or [military](#) rations is anticipated to fuel the hexamine market over the forecasted period.
