The report delivers a comprehensive evaluation of the Diagnostic Radiopharmaceuticals markets globally for the forecasted period from 2022-2030. The global industry research report comprises different marketing components and the future trends that are performing a

Diagnostic Radiopharmaceuticals

substantial role in the Diagnostic Radiopharmaceuticals industry. The factors such as the drivers, opportunities, challenges, and restraints will impact business growth across the world. Moreover, the market research report gives a deep outlook on the implementation of the industry in terms of revenue throughout the projected period.

Diagnostic Radiopharmaceuticals Market - Competitive and Segmentation Analysis:

This Diagnostic Radiopharmaceuticals Market report offers a detailed analysis supported by reliable statistics on sales and revenue by players for the period 2017-2022. The report also includes company description, major business, product introduction, recent developments, and Diagnostic Radiopharmaceuticals sales by region, type, and application.

The Global Diagnostic Radiopharmaceuticals Market study report will provide valuable insight with an emphasis on the global market. The major players in the business are

Cardinal Health
GE Healthcare
Curium Pharma
Jubilant Pharma
Bracco Imaging
Advanced Accelerator Applications
SIEMENS
China Isotope & Radiation
Dongcheng Pharmaceutical Group
Lantheus
Eli Lilly

Report further studies the market development status and future Diagnostic Radiopharmaceuticals Market trends across the world. Also, it splits the Diagnostic Radiopharmaceuticals industry Segmentation by Type and by Applications to fully and deeply research and reveal industry profiles and prospects.

On the basis of product type this Diagnostic Radiopharmaceuticals report displays the production, revenue, price, market share, and growth rate of each type, primarily split into:

Technetium 99 (Accounted for 47.56% of the market in 2019)
Fluorine 18
Other

On the basis of the end users/applications, this report focuses on the status and outlook for major applications/end users, consumption (sales), market share, and growth rate for each application, including:

Oncology (45.8% of the total market in 2019)

Cardiology

Other
