

# Dementia Treatment Market will grow at a CAGR of 8.50% during the forecast period to 2029

*Dementia Treatment Market Business, Global Industry, Competitive Landscape, Research Analysis, Trends and Forecast*

PUNE, MAHARASHTRA, INDIA, August 9, 2022 /EINPresswire.com/ --

[Dementia treatment market](#) is a broad category of mental illnesses that, over the long term, cause a person's ability to think and remember to deteriorate.

Despite scientific and medical advances, the causes of dementia have not yet been identified. As a result, the disease is treated only on a symptomatic basis. Nevertheless, movement disorders such as Parkinson's disease are known to be a trigger for dementia in many cases.

The dementia treatment market is favorable and aims to reduce the severity of symptoms. Data Bridge Market Research analyzes that the dementia treatment market will grow at a CAGR of 8.50% during the forecast period from 2022 to 2029.

## [Dementia Treatment Market Dynamics](#)

### Drivers

Growing aging population and increasing health infrastructure

The high prevalence of dementia is driving the growth of the dementia treatment market.

Advances in treatment and development of new therapies for dementia will also contribute to the growth of the dementia treatment market. Moreover, the aging of the vulnerable population can be seen as a positive measure of the growth of this market. Additionally, the growth of this market can be attributed to government incentives and benefits through special designation.

Increase investment in health infrastructure

Accelerated technological advancements in drug discovery techniques and large government investments in drug development are factors that are opening up new avenues in the industry.

## Opportunities

Increase in R&D investments by public and private organizations

Scope of the global dementia treatment market

The dementia treatment market is segmented on the basis of types, drug class, treatment type, route of administration, end users, and distribution channel. The growth of these segments will help you analyze low growth segments in the industries and provide users with valuable market overview and market insights to help them make strategic decisions to identify major applications of the market.

## Type

Alzheimer's disease dementia

Vascular dementia

Dementia with Lewy bodies (DLB)

Parkinson's disease dementia

Mixed dementia

Frontotemporal dementia

On the basis of type, the dementia treatment market is segmented into Alzheimer's disease dementia, Vascular dementia, Lewy body (DLB) dementia, Parkinson's disease dementia, Mixed dementia, Frontotemporal dementia, Others .

## Drug class

MAO inhibitors

Glutamate inhibitors

Cholinesterase inhibitors

Others

The drug class segment for dementia treatment market includes MAO inhibitors, glutamate inhibitors, cholinesterase inhibitors and others.

## Type of therapy

Cognitive stimulation therapy

Cognitive-behavioral therapy (CBT)

On the basis of therapy type, the dementia treatment market is segmented into cognitive stimulation therapy and cognitive behavioral therapy (CBT).

## Route of administration

Oral

Parenteral

On the basis of route of administration, the dementia treatment market is segmented into oral and parenteral administration

## End use

Clinical

Hospital

Others

On the basis of end users, the dementia treatment market is segmented into clinic, hospital and others.

## Distribution channel

Hospital pharmacy

Special clinics

Others

The dementia treatment market is also segmented on the basis of distribution channel into hospital pharmacy, specialty clinics, and others

## Pipeline analysis

The Anticonvulsant Drugs Pipeline Analysis includes various pipeline therapies such as LP352, OPC-214870, Ganaxolone, CT-010, Vatiquinone E-2730, XEN496 and NBI 827104. Otsuka Pharmaceutical Co. Ltd, Marinus Pharmaceuticals, Cerebral Therapeutics LLC, PTC Therapeutics, Xenon Pharmaceuticals, Longboard Pharmaceuticals, Eisai, Neurocrine Biosciences and others are involved in developing potential drugs for improving seizure treatment
