The chemical distribution market consists of sales of chemical distribution by entities (organizations, sole traders, and partnerships) that refer to a diversified enterprise that serves a variety of industries by providing solutions in the form of specialty or commodity chemicals. A few sectors in which chemical distribution is involved are agriculture, cosmetics, food and feed, pharmaceuticals, construction, and paints and coatings. Chemical distribution includes several activities which include packaging, logistics, warehousing, mixing, blending, formulating, technical assistance, training, recycling, research and development, innovation, and ingredients.

## Global Chemical Distribution Market Trends

Technological advancement is shaping the chemical distribution market outlook. Various advancements like eco-friendly chemical compound due to its engineered chemical structure which act as a non-toxic and safe for environment agent suitable for various applications. For instance, in November 2021, Cosmo Specialty Chemicals, an Indian specialty chemicals company, developed an emulsion that is hydrophilic block silicone. When compared to other traditional non-silicone softeners, it has better softening characteristics due to its lower rotational free

energy than C-O bonds. The agent is non-toxic and eco-friendly, and it may be used in a variety of applications while still having a great effect in the textile sector.

## **Global Chemical Distribution Market Segments**

The global chemical distribution market is segmented:

By Product: Specialty Chemical, Commodity Chemical

By Type: Pipelines, Containers, Barrels, Sacks

By End-Use: Transportation, Construction, Agriculture, Textiles, Pharmaceuticals, Industrial

Manufacturing, Others

By Geography: The global chemical distribution market report is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, Asia-Pacific accounts for the largest share.

Chemical Distribution Global Market Report 2022 is one of a series of new reports from The Business Research Company that provides chemical distribution market overviews, analyzes and forecasts market size and growth for the global chemical distribution market, chemical distribution global market share, chemical distribution global market segments and geographies, chemical distribution global market players, chemical distribution global market leading competitor revenues, profiles and market shares. The chemical distribution global market report identifies top countries and segments for opportunities and strategies based on market trends and key competitors' approaches.

TBRC's Chemical Distribution Global Market Report 2022 includes information on the following:

Data Segmentations: Market Size, Global, By Region and Country, Historic and Forecast, and Growth Rates for 60 Geographies

Key Market Players: Univar, Helm, Brenntag, Azelis Holdings, Omya, Biesterfeld, Safic-Alcan, Stockmeier, REDA Chemicals, Ashland, BASF, Jebsen & Jessen, Quimidroga, Solvadis Deutschland, Ter Hell & Co, IMCD Group, Nexeo Solution Holding, ICC Chemicals, Royal Vopak, KPL International Limited, and Parchem Fine & Specialty Chemicals.

Regions: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.

Countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

And So Much More.
