

# canabd Now Opens CBD Store In Israel

*canabd now has a CBD store in Israel. The international firm is known as a leading CBD outlet in many countries, including the UK.*

TEL AVIV, ISRAEL, August 11, 2022 /EINPresswire.com/ -- canaBD now has a CBD store in Israel. The international firm is a leading CBD outlet in many countries, including the UK. The firm's entry into the Israeli market will be a welcome addition to cannabidiol customers in the area. It will also definitely add some much-needed competition to the local CBD market.

"For a long time now, cannabis had been categorized as a narcotic, and many countries have yet to legalize this wonder plant that has so many

benefits," said a representative from canabd Israel. "[What is CBD?](#) CBD is a derivative of cannabis and has many health benefits yet to be fully embraced or even realized in Israel. Our company only uses 100% natural cannabis grown under strict international regulations to ensure that our

CBD is of the best quality. Our CBD does not contain high THC potency, so it is safe for prolonged use. We encourage people living in Israel to try CBD from our online store and enjoy the difference in quality."

“

For a long time now, cannabis had been categorized as a narcotic, and many countries have yet to legalize this wonder plant that has so many benefits”

Omer

CBD is derived from cannabis or the less potent hemp varieties of the same plant. canabd Israel produces and sells various forms of CBD, including [CBD oil](#), "which is great for relaxation and better sleep," according to the firm's head of marketing and research. The uptake of cannabis products has been slow in Israel, mainly due to a

lack of education about its benefits and cultural constraints. However, canabd Israel alleges they are making headway as they continue to inform their market.

Many people in today's world, Israel included, suffer from anxiety. Insomnia among adults and children is also on the rise as global changes make for unpredictable future times to come. Some say it could be because of the changing lifestyle - with more demands being placed on people by life and society. This same issue is prevalent in Israel too. Perhaps that is what this new CBD store in Israel is banking on.

In most cases, CBD extracts are used by many simply for wellness. CBD does not need to be prescribed by a doctor in some countries. But in Israel, it can be specified for medical use. For more information on this topic, check out canabd Israel's contact information below.
