

The Steinberg Law Group – Mesothelioma / Asbestos Lung Cancer Lawyers - Mesothelioma Options Help Center of Florida

The Steinberg Law Group – Mesothelioma / Asbestos Lung Cancer Lawyers – Jointly Responsible for Over \$500,000,000 in Verdicts & Settlements Since 2001

HOUSTON, TEXAS, USA, August 10, 2022 /EINPresswire.com/ -- Our [Mesothelioma](#) Options Help Center of Florida is dedicated to providing top quality legal and medical assistance to those stricken with mesothelioma or [asbestos-related lung cancer](#). Anyone wishing to discuss their legal and/or medical options should call (888) 891-2200 to speak directly with an attorney from the Steinberg Law Group.

The Steinberg Law Group has decades of experience in handling mesothelioma and other asbestos-related cases. With offices in New York, California and Texas, the Steinberg Law Group has a national footprint that helps win the best possible financial compensation for clients.

Typically, asbestos exposure will have occurred sometime between the 1950s and the 1980s. Some of the most prevalent professions that encountered large quantities of asbestos include power plant workers, maritime workers, industrial workers, plumbers, pipefitters, electricians, mechanics, machinists, miners, railroad workers and construction workers, to name a few. Since the latency period for mesothelioma patients is approximately 40 years, most people diagnosed with mesothelioma or asbestos-related lung cancer in 2022 were exposed decades ago.

We can help you find the top doctors from coast to coast.

SLG

THE STEINBERG LAW GROUP

The Steinberg Law Group has decades of proven experience and the resources to help veterans obtain the financial compensation they deserve. All of it.

Although asbestos does not naturally occur in Florida, thousands of tons of asbestos were shipped to Florida for processing in Boca Raton, Jacksonville, Pompano Beach, St. Petersburg and Tampa. As a result, numerous buildings in the state of Florida contain asbestos. In addition to the asbestos processing plants mentioned above, asbestos was used in the construction and mining industries as well as at shipyards, power plants, chemical plants, auto repair shops, schools and metal works factories throughout the state.

Known jobsites, companies and locations with asbestos exposure in Florida include, but are not limited to, Big Bear Powerhouse, Crist Power Plant, St. Lucie Nuclear Power Plant, U.S. Sugar and Vero Beach Municipal Power Plant, Mulberry Phosphate Mine, DuPont Corp., Eustis Housing Project, Jacksonville Grammar School, NASA, Florida State University, Atlantic Dry Dock, The Hendry Corporation, Offshore Shipbuilding Co., Tampa Bay Shipbuilding, Gulf Marine Repair Corporation, Mayport Navy Station and Pensacola Naval Air Station.

For the best possible medical treatment for mesothelioma and asbestos-related lung cancer, call (888) 891-2200 so a member of the Mesothelioma Options Help Center of Florida can determine which hospital/doctor in our network is most convenient for you.

States with the highest incidence of mesothelioma include Oregon, Washington, Louisiana, Minnesota, North Dakota, Michigan, Illinois, Virginia, West Virginia, Ohio, Pennsylvania, New Jersey, Maryland, Massachusetts, Maine and Connecticut. For more information about mesothelioma and asbestos-related lung cancer, call (888) 891-2200 or visit www.mesotheliomaoptions.com now.

Robert L. Steinberg
The Steinberg Law Group

We support our military veterans.

The asbestos industry knowingly poisoned people for decades.
