Global Syringes Market Trends and Drivers:

The market is primarily driven by the sudden outbreak of the coronavirus disease (COVID-19) pandemic as governments of several countries are promoting fast and safe vaccination to reduce the contamination. In addition, the growing prevalence of chronic diseases and the increasing risk of healthcare-associated infection (HAI) cases are escalating the demand for disposable syringes that are ready-to-use and cost-effective. Besides this, a rising number of individuals undergoing surgical procedures, which is increasing the utilization of single-use syringes to deliver anesthetics. This, coupled with various initiatives undertaken by healthcare agencies, such as installing sharp containers in public places to manage the increased number of used syringes and encourage safe injection practices, is creating a favorable market outlook across the globe.
