mHealth Market Scenario

MHealth is defined as a diverse branch of eHealth that deals with patient data collection. This patient-related data is gathered using wireless electronic devices such as mobile phones, wearable devices, and other mHealth devices. Furthermore, using a mHealth application, the collected patient data is stored on a remote cloud.

The number of internet applications in healthcare has grown exponentially in recent years. The internet has connected all points in healthcare administration/services, resulting in the creation of a separate network for healthcare known as the Internet of Things (IoT). Healthcare professionals can deliver health information to consumers more conveniently, in less time, and at a lower cost with the help of the internet.

The Key Companies Profiled in the mHealth Market are : Koninklijke Philips N.V. (Netherlands), Abbott (US), Medtronic (Ireland), Johnson & Johnson Private Limited (US), Apple, Inc.
