The commercial boiler market consists of sales of commercial boilers by entities (organizations, sole traders, and partnerships) that are used to provide heating and hot water to non-domestic buildings. It is a pressurized system offering steam and hot water to buildings through the use of electricity or burning combustible fuel. With the lesser wastage of energy, commercial boilers keep the commercial building safe and comfortable. Commercial boilers usually have components such as a burner, heat exchanger, combustion chamber, controllers, and exhaust stacks.

## Global Commercial Boiler Market Trends

The launch of innovative boiler systems is a [key trend gaining popularity in the commercial boiler market](#). The commercial boiler market is witnessing the arousal of innovation trends such as the introduction of low NOx (nitrogen oxide) boilers and high-efficiency boilers with compact designs, reduced carbon footprints, enhanced efficiency, easy installation, and others. These innovative commercial boilers offer companies increased sales and an opportunity to gain a competitive edge in the market.

## Global Commercial Boiler Market Segments

The global commercial boiler market is segmented:

By Boiler Type: Fire Tube, Water Tube

By Fuel Type: Natural Gas, Oil, Coal, Others

By Technology: Condensing, Non-Condensing
