Market Dynamics:

Reports And Data

The manufacturing and construction industry is booming right now attributable to factors such as rapid urbanization and industrialization worldwide, increasing construction activities, availability of high-quality raw materials at affordable prices, and rapid advancements in the manufacturing processes. Other factors such as increasing demand for smart buildings and smart homes, increasing disposable income, improving standard of living especially in the developing countries, and integration of advanced technologies such as IoT, machine learning, and automation to improve operational efficiency are expected to boost market revenue growth over the forecast period. In addition, favorable government policies, high preference for eco-friendly and sustainable construction activities, and increasing renovation activities are expected to further boost global market growth between 2017 and 2028.

The report categorizes the market into different key segments based on types, applications, end-users, and region. The report offers insights into segments expected to register significant revenue growth during the forecast period along with the region expected to dominate other regional markets in the coming years.

Type Outlook (Revenue, USD Billion; 2017-2027)

- Blood Bank Refrigerators
- Plasma Freezers
- Lab freezers
- Lab Refrigerators
- Ultra-low Temperature Freezers
- Shock Freezers

Application Outlook (Revenue, USD Billion; 2017-2027)

- Blood Bank
- Pharmacies
- Hospitals
- Research Labs
- Diagnostics Centers

Regional Analysis of the Market Include:

- North America (U.S.A., Canada, Mexico)
- Europe (U.K., Italy, Germany, France, Italy, BENELUX, Rest of Europe)
- Asia-Pacific (India, Japan, China, South Korea, Australia, Rest of APAC)
- Latin America (Chile, Brazil, Argentina, Rest of Latin America)

- Middle East & Africa (Saudi Arabia, U.A.E., South Africa, Rest of MEA)
