

City of Corona, California, Proclaims Never Give Up Day

The City of Corona, California, joins community members celebrating Never Give Up Day on August 18th.

CORONA, CALIFORNIA, UNITED STATES, August 12, 2022 /EINPresswire.com/ -- For any celebration to become truly effective, it has to be adopted by the mainstream. The mayoral proclamation signals the city's role in recognizing the impressive resilience and determination of its community.

'Never Give Up' is what we were told throughout our lives, by our parents, by storybooks, by teachers, coaches, mentors and colleagues. [Never Give Up](#)

[Day](#) is also seen as significant day of influences on children; we know from many studies what happens when a person gives up. In a sense, Never Give Up Day helps to demonstrate the importance and value of never giving up and the impact that such a day bestows on society.

Never Give Up Day is a global celebration day that focuses on cultivating a mindset of determination"

Mr Never Give Up

There are moments when we become so lost, we are not quite sure we'd ever find ourselves again. In those dark moments of uncertainty and fear, it is hard to maintain face, let alone the strength to keep moving forward. To many people all can be lost and the story would end right there. Never Give Up Day is coming as a calling for so many people. It comes when they need it most. The

strength of this day gives us the time we need to grow so that we can become our fullest selves.

On this day we are part of a big family with millions of people in the same boat, encouraging the general public to never give up the fight against global issues of concern like illness, poverty and climate change.

Never Give Up Day was first observed in 2019. However, it was not until 2021, that city mayors approved to proclaim August 18th as Never Give Up Day, making this day a nationwide celebration day. We believe that everyone fighting for a better future deserves to be encouraged to never give up.

This day encourages associations, charities, the public and private sectors, schools, universities, and citizens more generally, to make this day a springboard for awareness-raising actions.
