

Europe Fly Control Chemicals Market Growth, Comprehensive Analysis by Experts with Key Players, Regions, Forecast, 2026

Europe fly control chemicals industry is expected to hit \$2.24 billion by 2026, registering a CAGR of 5.8% during the estimated period.

OREGON, PORTLAND, UNITED STATES, August 11, 2022 /EINPresswire.com/ -- The Europe fly control chemicals industry was estimated at \$1.41 billion in 2018 and is expected to hit \$2.24 billion by 2026, registering a CAGR of 5.8% during the estimated period. Allied Market Research published a report, titled, "Europe Fly Control Chemicals Market for Household Waste, by Type (Larvicide and Adulticide), Waste Treatment Method (Mechanical Biological Treatment, and Anaerobic Digestion), Method of Application (Toxic Bait, Dichlorvos Vaporizer, Outdoor Space-Spraying, Larvicide Sprayers, and Others), and Active Ingredient (Organophosphorus Compounds, Pyrethroids Compounds, Neonicotinoids, and Insect Growth Regulator): Opportunity Analysis and Industry Forecast, 2019–2026". The report provides a detailed analysis of the drivers & opportunities, wavering market trends, competitive market scenario, and market size & estimates.

Leading players in the market-

- LafargeHolcim Ltd
- BIODEGMA GmbH
- Biffa, Renewi PLC
- BTA International GmbH
- Veolia

- FCC Austria Abfall Service AG
- REMONDIS SE & Co. KG
- AMEY PLC
- Nehlsen AG

Drivers, restraints and opportunities-

Rise in waste generation and rapid increase in insects propel the growth of the Europe fly control chemicals market. On the other hand, storage and handling of insecticides restrains the growth to certain extent. However, increase in stringent government regulation for waste management is expected to provide lucrative opportunities in the industry.

The adulticide segment to lead the trail till 2026-

Based on product type, the adulticide segment contributed to nearly three-fourths of the Europe fly control chemicals market share in 2018 and is expected to rule the roost throughout 2019–2026. As it is prominent type of insecticide utilized in waste management due to large numbers of adult mosquitos and flies, that have a greater tendency to multiply rapidly. The larvicide segment, on the other hand, would showcase the fastest CAGR of 6.1% by 2026. This is attributed to the fact that Europe has faced outbreaks of mosquito-borne diseases, such as dengue and chikungunya. Due to which larvicides is used, in order to assist municipalities from temperate areas in Europe in effectively planning vector control programs.

Mechanical biological treatment to dominate during the estimated period-

Based on waste treatment method, the mechanical biological treatment held the major share in 2018, contributing nearly three fifths of the Europe fly control chemicals market. This is due to positive environmental externalities comprising improved landfill efficacy, such as the positive modification of leachate and landfill gas (LFG) production and quality. At the same time, the anaerobic digestion is projected to register the fastest CAGR of 6.2% during 2019–2026, owing to the factors such as less sludge generation (50 times less), saves the energy needed for aeration as compared to aerobic treatment as well as produces a biogas such as methane.

Italy to maintain its top status during the study period-

Based on region, Italy, accounted for one-fifth of the Europe fly control chemicals market revenue in 2018 and is anticipated to maintain its top status in terms of revenue. This is attributed to increase in generation of organic waste, which correspondingly increases the adoption of insecticides. Simultaneously, the Germany region would cite the fastest CAGR of 6.7% till 2026. This is attributed to governmental initiatives and investment in technological development in household waste management sector.

About Us:

Allied Market Research (AMR) is a full-service market research and business-consulting wing of Allied Analytics LLP based in Portland, Oregon. Allied Market Research provides global enterprises as well as medium and small businesses with unmatched quality of "Market Research Reports" and "Business Intelligence Solutions." AMR has a targeted view to provide business insights and consulting to assist its clients to make strategic business decisions and achieve sustainable growth in their respective market domain.

Pawan Kumar, the CEO of Allied Market Research, is leading the organization toward providing high-quality data and insights. We are in professional corporate relations with various companies and this helps us in digging out market data that helps us generate accurate research data tables and confirms utmost accuracy in our market forecasting. Each and every data presented in the reports published by us is extracted through primary interviews with top officials from leading companies of domain concerned. Our secondary data procurement methodology includes deep online and offline research and discussion with knowledgeable professionals and analysts in the industry.
