Fast Cooling in 10 Minutes to 30-40F (Air Inlet VS Air Outlet*)
With 2380 Btu and 700W higher cooling efficiency, you will be pleased to know that in just 10 minutes, the heavy-duty compressor of the EnjoyCool Link can reduce the outlet air temperature to a significant

extent.

Within EnjoyCool Link, we have incorporated an innovative system to draw fresh air and release hot air efficiently. The system enables the air conditioner to work with high unit efficiency and optimal cooling power.

6.3KG Lightweight Easy to Carry

The lightest portable air conditioner on the market incorporates a dual-pipe outdoor unit and has the highest cooling capacity for its size. It is the lightest dual-duct outdoor portable air conditioner on the market, and the most robust cooling performance in this size. It is also 15% smaller than comparable products on the market.

Multi-scenario Stay Cool and Enjoy Summer

Panasonic's seven patent-protected 1P inverter compressors deliver fast cooling in less than 10 minutes.

It is particularly suitable for camping and other outdoor activities such as boat fishing, garage work, truck cockpit sleepovers, and RV trailers. In simple words, the summers will be a lot cooler with EnjoyCool Link.

EnjoyCool Link portable air conditioners can regulate the temperature in a room without consuming a lot of energy. Many holidaymakers want to cool their beds at night.
