Covid-19 impact:

Manufacturing activities of Concrete Pumps halted due to implementation of stringent lockdown. To prevent the spread of coronavirus, governments across every nation made social distancing compulsory, due to which, market players faced shortage of labor force. Moreover, restrictions in import & export activities led to supply chain disruptions which further resulted to shortage of raw materials. This in turn, created challenges in carrying out manufacturing in full capacity. Also, most of the construction projects were either delayed or cancelled, especially in the initial stage of the pandemic.
