The In-Flight Catering Services Market is expected to witness market growth at a rate of 5.29% in the forecast period of 2022 to 2029. Data Bridge Market Research report on in-flight catering

services market provides analysis and insights regarding the various factors expected to be prevalent throughout the forecast period while providing their impacts on the market's growth. The rise in the demand for the product for various applications globally is escalating the growth of in-flight catering services market.

In-flight catering services refer to the type of services include provision of ready and prepared food and drinks at any public airport. These are widely deployed in an aircraft while in flight. Catering companies usually prepare these meals and are served by trolley to passengers.

The increase in air traffic across the globe acts as one of the major factors driving the growth of in-flight catering services market. The presence of favorable trends associated with Gross Domestic Product (GDP) coupled with low air travel costs, and high focus on quality food services and travelers to offer safe and quality premium food accelerate the market growth. The emergence of a new dynamic and essential safety protocols to professional commercial kitchens, and high demand for commercial aircraft further influence the market. Additionally, rise in the disposable income, rapid urbanization, change in consumer lifestyle, change in lifestyle, rise in the disposable income and surge in number of domestic and international air passengers positively affect the in-flight catering services market. Furthermore, advancement in the flight food requesting framework, and rise in onboard cooking extends profitable opportunities to the market players in the forecast period of 2022 to 2029.

On the other hand, stringent norms on airline catering and increase in the cost of the in-flight food services are expected to obstruct the market growth. Issues with transportation of food and low period of transported foods and stringent norms on airline catering are projected to challenge the in-flight catering services market in the forecast period of 2022 to 2029.

About Data Bridge Market Research, Private Ltd

Data Bridge Market Research Pvt Ltd is a multinational management consulting firm with offices in India and Canada. As an innovative and neoteric market analysis and advisory company with unmatched durability level and advanced approaches. We are committed to uncover the best consumer prospects and to foster useful knowledge for your company to succeed in the market.

Data Bridge Market Research is a result of sheer wisdom and practice that was conceived and built-in Pune in the year 2015. The company came into existence from the healthcare department with far fewer employees intending to cover the whole market while providing the best class analysis. Later, the company widened its departments, as well as expands their reach by opening a new office in Gurugram location in the year 2018, where a team of highly qualified

personnel joins hands for the growth of the company. "Even in the tough times of COVID-19 where the Virus slowed down everything around the world, the dedicated Team of Data Bridge Market Research worked round the clock to provide quality and support to our client base, which also tells about the excellence in our sleeve."
