About the Emerging Growth Conference

The Emerging Growth conference is an effective way for public companies to present and communicate their new products, services and other major announcements to the investment community from the convenience of their office, in a time efficient manner.

The Conference focus and coverage includes companies in a wide range of growth sectors, with strong management teams, innovative products & services, focused strategy, execution, and th overall potential for long term growth. Its audience includes potentially tens of thousands of Individual and Institutional investors, as well as Investment advisors and analysts.

All sessions will be conducted through video webcasts and will take place in the Eastern time zone.

About Bioxytran, Inc.

Bioxytran, Inc. is a clinical stage biotechnology company developing novel therapies targeting the treatment of significant unmet medical needs in virology, degenerative disease, and hypoxia. The leading drug candidate, Prolectin-M, is a new class of antiviral drug designed to antagonize galectins implicated in inflammatory, fibrotic, and malignant diseases. Bioxytran's other development programs are for pulmonary fibrosis and stroke treatment. More information can be found at www.bioxytraninc.com

Forward-Looking Statements

This press release includes forward-looking statements as defined under federal law, including those related to the performance of technology described in this press release. These forward-looking statements are generally identified by the words "believe," "expect," "anticipate," "estimate," "intend," "plan," and similar expressions, although not all forward-looking statements contain these identifying words. Such statements are subject to significant risks, assumptions and uncertainties. Known material factors that could cause Bioxytran's actual results to differ materially from the results contemplated by such forward-looking statements are described in the forward-looking statements and risk factors in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2021 and those risk factors set forth from time-to-time in other filings with the Securities and Exchange Commission. Bioxytran undertakes no obligation to correct or update any forward-looking statement, whether as a result of new information, future events, or otherwise, except to the extent required under federal securities laws.
