

# 111MedCo's 10% Benzoyl Peroxide Soap Bar Chosen As One Of The Best Benzoyl Peroxide Body Washes by Bustle.com

Soon after achieving it's 5,000th review at 4.5 stars, 111MedCo's 10% Benzoyl Peroxide Soap Bar finds another win with the team at Bustle.com

WILMINGTON, DE, USA, August 16, 2022 /EINPresswire.com/ -- The article listed many good washes to help with body acne, but the [111MedCo 10% Benzoyl Peroxide Soap Bar](#) as the only "soap bar" in the body wash category.

The article stated that benzoyl peroxide may be one of the most popular ingredients found in over-the-counter products for treating acne, but the bacteria-killing topical does come with a few drawbacks. In addition to potentially causing dryness, redness, and peeling (particularly in those with sensitive skin), benzoyl peroxide can also stain your clothes, towels, and pillowcases when used in the form of a spot treatment (or any type of cream or lotion that stays on the skin). That's why, when it comes to treating body acne, acne sufferers might prefer to start with one of [the best benzoyl peroxide body washes](#), which tend to be gentler on skin since they're washed off.

## 5. Best Benzoyl Peroxide Bar Soap

### 111 MedCo 10% Benzoyl Peroxide Cleansing Bar

Though not technically a body wash, this bar soap can still be used in the shower as an all-over treatment for acne. 111 MedCo's 10% Benzoyl Peroxide Cleansing Bar uses the maximum concentration of benzoyl peroxide that's allowed in over-the-counter products. The brand says that their bar soap will last up to six times longer than a liquid cleanser, and it's an easy option for traveling as you don't have to worry about spills or TSA restrictions.

**Relevant Review:** "No strong scent, truly cured my bacne. I have naturally oily skin so no drying out for me personally. Better than what the dermo prescribed me."

Bustle.com

Better for the environment. We only have a cardboard carton and no plastic.

The article also does a very nice job explaining how to use benzoyl peroxide body wash. First,

acne sufferers want to apply the benzoyl peroxide cleanser after their usual body wash, and only to the areas that tend to breakout; this will usually be the chest, back, buttocks, and thighs. And most importantly, give the benzoyl peroxide a chance to work. Lather on the benzoyl peroxide cleanser and let it sit on the skin for one to five minutes depending on the skin's needs and tolerance. Use it no more than once daily if actively treating acne breakouts, and if using it as maintenance and prevention, use it two to four times a week.

Drug Facts	
<b>Active ingredient</b>	<b>Purpose</b>
Benzoyl peroxide 10%	Acne medication
<b>Use</b> for the treatment of acne; helps prevent new acne blemishes from forming.	
<b>Warnings</b> For external use only	
Do not use • If you have very sensitive skin • If you are sensitive to benzoyl peroxide.	
When using this product • skin irritation and dryness is more likely to occur if you use another topical acne medication at the same time. If irritation occurs, only use one topical acne medication at a time • avoid unnecessary sun exposure and use a sunscreen	
• avoid contact with the eyes, lips, and mouth • avoid contact with hair and dyed fabrics, which may be bleached by this product • skin irritation may occur, characterized by redness, burning, itching, peeling, or possibly swelling. Irritation may be reduced by using the product less frequently or in a lower concentration.	
Stop use and consult a doctor if • irritation becomes severe.	
Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away.	
<b>Directions</b> • using warm water, wash the affected area for 1 to 2 minutes • rinse well and pat dry with a clean towel • because too much drying of the skin may occur, start with 1 application daily, then gradually increase to 2 to 3 times daily if needed or as directed by a doctor • if bothersome dryness or peeling occurs, reduce application to once a day or every other day • if going outside, apply sunscreen after using the product • if irritation or sensitivity develops, stop use of both products and ask a doctor.	
<b>Other information</b> Store at controlled room temperature 59°-86°F (15°-30°C)	
<b>Inactive ingredients</b> sodium cocoyl isethionate, stearic acid, coconut acid, water, sodium isethionate, ethylene/VA copolymer, zea mays (corn) starch, sodium tallowate, titanium dioxide, mineral oil, cocamidopropyl betaine, tetrasodium etidronate, sodium cocoylate, glycerin, sodium chloride, tetrasodium EDTA	

Directions

Benzoyl peroxide is a mainstay of any acne treatment regimen around the world and has been in use since 1960. It offers antibacterial effects (kills bacteria), keratolytic effects (helping to loosen outer layers of the skin and shed them), and comedolytic activity (reduces the formation of pimples).

The 111MedCo 10% Benzoyl Peroxide Soap Bar is a simple and inexpensive way to help treat acne on the face and body.

Bar soaps get you clean, reduce waste, and may last longer. They are also making a resurgence due to their simplicity of packaging, only requiring paper and no plastic. They are also lighter to transport than liquid soaps helping to reduce environmental impacts.
