## About NEMTAC

We offer the only national accreditation program that represents non-emergency medical transportation (NEMT) companies, agencies, groups and individuals (non-ambulance).

NEMTAC standards represent industry best practices to ensure consistently high-quality customer care, safe vehicle operations and ethical business practices. In addition to accreditation, NEMTAC offers education and training certificate programs to individuals working

in and seeking a career in the NEMT industry.

Obtaining NEMTAC accreditation distinguishes an organization and signifies to its customers and stakeholders that they have met the NEMT industry standards of excellence. NEMTAC's comprehensive accreditation process often exceeds those established by state or local regulators. NEMTAC accredited organizations should see increased utilization, decreased liability and will be recognized as a market leader.
