

Water Treatment Chemicals Market Predicted To Experience Massive Surge In Demand & Yield | Ecolab Inc., BASF SE, SUEZ S.A

Strict regulatory framework of government regarding environmental issues and growing demand from the industrial and power applications are driving the market.

VANCOUVER, BC, CANADA, August 16, 2022 /EINPresswire.com/ -- The global [Water Treatment Chemicals Market](#) is expected to reach USD 71.48 Billion by 2027, according to a new report by Emergen Research. The growth of this market can be attributed to the

increasing requirements from the refining and petrochemical industries in the developing economies. Increasing investments in the research and development to generate more efficient chemical based water treatment technology is expected to drive the demand for the industry.

“

Market Size – USD 45.50 billion in 2019, Market Growth - CAGR of 5.8%, Market Trends – Growing development of water treatment chemicals industry”

Emergen Research

The pandemic has severely affected the supply chain and raw material supplies as the manufacturers have shut down their productions due to the lockdown. But, it has a positive effect on the water treatment chemicals market due to the increased consumption of water for maintaining hygiene. Proper hygiene conditions, sanitization, and safe water are mandatory for human health during COVID-19.

Strict regulatory framework of government regarding environmental issues and growing demand from the industrial and power applications are driving the demand

of the market.

The scope of the study extends to the diverse factors influencing the Water Treatment Chemicals

sector, including the market scenario, regulatory framework implemented by governmental authorities, in-depth analysis of historical data, market trends, latest and pivotal technological development, emerging innovations, market risks, factors detrimental to market growth, and challenges faced by the existing players operating in the sector.

A few of the leading players operating in the Water Treatment Chemicals market research report are:

Ecolab Inc., BASF SE, SUEZ S.A., Solenis LLC, Kurita Europe GmbH, The DOW Chemical Company, Baker Hughes Incorporated, Kemira OYJ, Snf Floerger, and Akzo Nobel N.V.

Extent of the research:

Segments Covered in this report are:

Product Outlook (Volume: Kilo Tons) (Revenue, USD Billion; 2017-2027)

Biocide & Disinfectant

Coagulants & Flocculants

pH & Adjuster & Softener

Scale & Corrosion Inhibitors

Anti-foaming Agents

Others

End User Outlook (Volume: Kilo Tons) (Revenue, USD Billion; 2017-2027)

Oil & Gas

Municipal

Power

Mining & Mineral Processing

Food & Beverage

Chemical Manufacturing

Pulp & Paper

Others

Application Outlook (Volume: Kilo Tons) (Revenue, USD Billion; 2017-2027)

Boiler

Raw Water Treatment

Cooling

Water Desalination

Effluent Water Treatment

Others

Some key aspects explored in this report are:

The Coagulants & Flocculants dominated the market with a share of 39.5% in 2019 as a wide number of water treatment plants use the sedimentation process. Biocides & Disinfectant is expected to be the second-largest segment among the products as it reduces contamination and biofouling.

Municipal corporations are expected to register for the highest growth in the market over the forecast period due to the increasing need for freshwater in the developed countries of North America and Europe.

The raw water treatment is the largest application segment in 2019 due to its growing utilization in the product formulations for industrial settings.

Asia-Pacific is expected to register the highest CAGR over the forecast period due to the growing population and rapid urbanization in countries such as China, Malaysia, India, and Indonesia. Besides, the growth of the manufacturing, power, and industrial sectors in the region is also expected to boost the growth of the market.

About Emergen Research

Emergen Research is a market research and consulting company that provides syndicated research reports, customized research reports, and consulting services. Our solutions purely focus on your purpose to locate, target, and analyze consumer behavior shifts across demographics, across industries, and help clients make smarter business decisions. We offer market intelligence studies ensuring relevant and fact-based research across multiple industries, including Healthcare, Touch Points, Chemicals, Types, and Energy. We consistently update our research offerings to ensure our clients are aware of the latest trend's existent in the market. Emergen Research has a strong base of experienced analysts from varied areas of expertise. Our industry experience and ability to develop a concrete solution to any research problems provides our clients with the ability to secure an edge over their respective competitors.
