Heavy-Duty Automotive Aftermarket Market Overview:

The global market is expected to exhibit a CAGR of 3.69% during 2022-2027. Heavy-duty automotive aftermarket refers to a secondary market in the automotive sector that caters to the after-sales requirements of heavy-duty vehicles. It includes equipment and automobile parts, such as tires, lubricants, accessories, batteries, filters, turbochargers, and exterior components. The heavy-duty automotive aftermarket deals with manufacturing, remanufacturing, distributing, redistributing, end-retail, reselling, and installation activities. It also offers retrofitting and refurbishment services to older vehicles to improve their performance and reduce carbon emissions. As a result, heavy-duty automotive aftermarket enhances vehicle life, provides a variety of generic parts, and minimizes expenses.
