Medical products and practices that are not considered a part of traditional or mainstream medical therapy are referred to as complementary and alternative medicine (CAM). It combines self-administered items and activities, including homoeopathic remedies, herbal medications, dietary supplements, yoga, chiropractic, acupuncture, and massage therapy. Manipulative and body-based therapies, biofield therapy, and entire medical systems are all included.

Drivers

Increasing prevalence of chronic diseases

The rising prevalence of chronic diseases such as cancer is estimated to enhance the growth rate of the complementary and alternative medicine market. Complementary and alternative medicine (CAM) is majorly used in the treatment of cancer and also improves the common side effects such as pain, nausea and fatigue.

Increasing investment for healthcare infrastructure

Another significant factor influencing the growth rate of complementary and alternative medicine market is the rising healthcare expenditure which helps in improving its infrastructure.

Also, various government organizations aims to improve the healthcare infrastructure by increasing funding and this will further influence the market dynamics.

Furthermore, rising initiatives by public and private organizations to spread awareness will expand the complementary and alternative medicine market. Additionally, changing lifestyle of people and rising geriatric population will result in the expansion of complementary and alternative medicine market.

Opportunities

Increase in the number of research and development activities

Moreover, the market's growth is fueled by an increase in the number of research and development activities. This will provide beneficial opportunities for the complementary and alternative medicine market growth. Along with this, rising drug approvals and launches will further propel the market's growth rate.

Rising number of strategic collaborations

The market has grown substantially as a result of new product introductions in response to increased demand for treatments and continual innovation. For instance, Optum had purchased DaVita Medical Group in 2019. This purchase is towards the development of Novel therapies that children may administer and that can assist physicians, health professionals, physical therapists, and chiropractors. Furthermore, nearly two-thirds of the population in most industrialized and developing nations reported utilizing some type of alternative or complementary treatment as of early 2016.

Moreover, rising investment for the development of advanced technologies and an increase in the number of emerging markets will provide beneficial opportunities for the complementary and alternative medicine market growth during the forecast period.
