*The Steinberg Law Group – Mesothelioma & Asbestos Lung Cancer Lawyers – Jointly Responsible for Over \$500,000,000 in Verdicts & Settlements Since 2001*

LOS ANGELES, CALIFORNIA, USA, August 17, 2022 /EINPresswire.com/ -- Our [Mesothelioma](#) Options Help Center of Washington is dedicated to providing top quality legal and medical assistance to those stricken with mesothelioma or [asbestos](#)-related [lung cancer](#). Anyone wishing to discuss their legal and/or medical options should call (888) 891-2200 to speak directly with an attorney from the Steinberg Law Group.

**THE STEINBERG LAW GROUP**

The Steinberg Law Group has decades of proven experience and the resources to help veterans obtain the financial compensation they deserve. All of it.

“

If you have enjoyed a good life while working with asbestos products, why not die from it?”

*The director of purchasing for  
asbestos manufacturer  
Bendix Corporation*

The Steinberg Law Group has decades of experience in handling mesothelioma and other asbestos-related cases. With offices in New York, California and Texas, the Steinberg Law Group has a national footprint that helps win the best possible financial compensation for clients.

Typically, asbestos exposure will have occurred sometime between the 1950s and the 1980s. Some of the most prevalent professions that encountered large quantities of

asbestos include power plant workers, maritime workers, industrial workers, plumbers, pipefitters, electricians, mechanics, machinists, miners, railroad workers and construction workers, to name a few. Since the latency period for mesothelioma patients is approximately 40 years, most people diagnosed with mesothelioma or asbestos-related lung cancer in 2022 were exposed decades ago.

Washington contains over 30 known asbestos deposits and mines, which helps explain why the

state ranks in the top 10 when it comes to asbestos-related deaths. Residents of the state who worked in the shipyards, paper and steel mills, oil refineries and power generation industry are at an elevated risk of developing mesothelioma or asbestos-related lung cancer.

Jobsites and locations with known asbestos exposure in Washington include, but are not limited to, St. Peter's Hospital, Broadway Manor, Dabney Mack, Grays Harbor Vocational & Science Building, Grays Harbor Mill, Area 11 Elementary School, Auburn High School, Evergreen Heights Elementary School, Bellevue Business Center, Bellevue Junior High School, Bellingham Girls School, Seattle Junior College, Sisters of St. Joseph Hospital, Talbott Shipyard, Western Washington College of Education, Western Washington State College, Whatcom Middle School, Burnett Jewelry Store, Central Kitsap Fire & Rescue 6-4, Harrison Memorial Hospital, Mannette Theatre, James River Paper Mill, Kraft Bleach Plant, Centralia Power Plant, Centralia Steam Plant, Wacoal Power
